**WARRANTY CARD**  
of LPG CYLINDER TYPE – 5ltr

**To be filled in by the manufacturer:**

The bottle is checked and is suitable for operation. It complies with all requirements.	Manufacture date: 08.2025	Stamp 
--	------------------------------	--

**Помощна информация:**

LPG cylinder type 5 ltr	Serial No.
Name and address of the Merchant /full names and address of the Merchant/	
Name and address of the Buyer /full names and address of the Buyer/	
Start date of the warranty	
Signature and stamp of the Merchant / date of purchase /	
Signature of the Buyer	

**Note:** The warranty is valid only with a Warranty Card correctly filled in and stamped by the Merchant. The servicing and related to it costs shall be borne by the Merchant in case of wrongfully issued warranty card.

**Warranty period: 24 (twenty-four) months after the purchase date.**

**Warranty provisions:**

I. General provisions

- The user shall have the right of a claim in case of non-compliance of the goods with the agreed one.
- The warranty card shall contain obligatory the following information: name and address of the Merchant, serial number of the product, name and address of the manufacturer, purchase date.
- The user shall immediately inform the merchant in case he observes non-compliance of the product, as stated in "Claims", describing the non-compliance and presenting the filled in by the merchant warranty card.

II. User's rights based on the obligatory warranty

- The rights listed in the present warranty card can be exercised within the specified warranty period.
- The warranty period comes into force since the date of the purchase of the appliance, as stated in the warranty card.
- In case of non-compliance, the user has the right to require repair (first) and replacement, except in the cases, when the service chosen by the user is impossible or when it will cause incomparably higher costs to the merchant compared to the other service, taking into account the cost of the product itself.

III. Claims

The user states his claim to the merchant and requires repair or replacement. The merchant takes the non-complying product and handles it to the Manufacturer for repair and elimination of the fault in compliance with the Warranty terms.

IV. Cases, in which the warranty servicing can be refused:

- The warranty servicing can be refused when the faults result from any of the below stated reasons and their elimination:
  - damages caused to the appliance during transportation,
  - operation of the product non-compatible with its intended use and its characteristics,
  - non-permitted repair
  - wrongfully filled in or missing warranty card.
