

# 360° rotational detection coverage plus tip pinpointing breaking through traditional technology

★ 360° ★  
SENSING PROBE

**Super high sensitivity**  
capable of detecting tint  
metal objects

**Stable performance**  
Official genuine  
Quality assurance

**360 degree range**  
Rotating magnetic field  
design, working in 360  
degree range.

**Easy operation**  
self-diagnosis mode  
automatic identifying environment  
automatic balancing function.

## GRT-800

Hand-held Metal Detector

- 360° rotational detection coverage plus tip pinpointing breaking through traditional technology
- Unique bar structure
- Comfortable handle for ergonomically design
- Three LED light: Red, Green and Yellow light to know the work status more intuitively.

# GRT-800

Hand-held Metal Detector

- 360° rotational detection coverage plus tip pinpointing breaking through traditional technology
- Unique bar structure
- Comfortable handle for ergonomically design
- Three LED light: Red, Green and Yellow light to know the work status more intuitively.

### Functions and characters:

- 1、 Detecting part in rod shape, suitable for application in dead angle position where other detectors can not go.
- 2、 Rotating magnetic field design, working in 360 degree range.
- 3、 Capable for accurate detecting for tiny metal objects, including ferrous and non-ferrous objects.
- 4、 Easy operation, self-diagnosis mode, automatic identifying environment and automatic balancing function.
- 5、 Buzzer plus LED alarm mode and vibration alarm mode available.
- 6、 Handle design following ergonomics principle is operator-friendly.
- 7、 Auto battery power testing upon power-on, with yellow LED indicating low battery power.
- 8、 Control part: Three modes available: ON, OFF and vibration.
- 9、 Indicator part: Red LED indicates alarming, green LED indicates power supply and yellow LED indicates insufficient battery voltage.

### Technical parameters:

Working frequency: 95KHZ  
 Boundary Dimension: 487\*85\*35mm  
 Packing Dimension: 520\*100\*50mm  
 Carton Dimension: 535\*275\*515mm  
 Single Net weight: 0.45kg  
 Single Gross weight: 0.55kg  
 Gross Weight: 14.3kg 25pcs/Carton

### Inspection Report:

### Local Description :

Red, green and yellow LED, indicating working status in a simple and plain way.

Comfortable hand-feel is a result of design following ergonomics principle, giving operator unique feeling.

Three-mode personalized design is available: vibration, buzzer and switch, with sunken slot in switch, providing easy application.
