Our founder has carried over 20 years of experience in the sector to production by establishing our company. We continue our service in our modern facilities in Istanbul with the understanding of quality products and good prices, which is the result of sector experience.

In addition to our registered brands, we make contract manufacturing under our customers' brands (PL). By continuing our product development activities for the changing needs of our age, we try to find solutions to these needs and offer innovative products to our customers.

Our company is mainly export working, also, with operations in more than 50 countries on 4 continents contributes to the economy of Turkey. With our young and dynamic team, we continue to work with our customers in line with high quality and reasonable price targets.
