

TEMSA SKODA SABANCI ULASIM ARACLARI ANONIM SIRKETI EU CERTIFICATE OF CONFORMITY																																																																																																																																																																																																																																				
The undersigned: Duygu YAYCIOGLU / Technical Supervisor - R&D hereby certifies that the vehicle:																																																																																																																																																																																																																																				
0.1.	Make (Trade name of manufacturer)	TEMSA	0.10.	Vehicle identification number:	NLTPNG23001004346																																																																																																																																																																																																																															
0.2.	Type:	P-1	TEMSA SKODA SABANCI ULASIM ARACLARI ANONIM SIRKETI Duygu YAYCIOGLU TECHNICAL SUPERVISOR																																																																																																																																																																																																																																	
0.2.	Variant ⁽¹⁸⁵⁾ :	D3F110E																																																																																																																																																																																																																																		
0.2.	Version ⁽¹⁵³⁾ :	SYM																																																																																																																																																																																																																																		
0.2.1	Commercial name(s):	Prestij SX																																																																																																																																																																																																																																		
0.2.2.1	Allowed Parameter Values for multistage type approval to use the base vehicle emission values (insert range where applicable) ⁽¹⁾ :	N/A	TEMSA SKODA SABANCI ULASIM ARACLARI ANONIM SIRKETI Duygu YAYCIOGLU TECHNICAL SUPERVISOR																																																																																																																																																																																																																																	
0.2.3	Identifiers ⁽¹⁾ :	N/A																																																																																																																																																																																																																																		
0.4.	Vehicle category:	M3																																																																																																																																																																																																																																		
0.5.	Company name and address of manufacturer:	TEMSA SKODA SABANCI ULASIM ARACLARI ANONIM SIRKETI Sarihamzali Mahallesi Turhan Cemal Beriker Bulvarı, No: 563/A Seyhan / ADANA / TURKEY																																																																																																																																																																																																																																		
0.6.	Location and method of attachment of the statutory plates:	On VIN plate front entrance right side, riveting method	TEMSA SKODA SABANCI ULASIM ARACLARI ANONIM SIRKETI Duygu YAYCIOGLU TECHNICAL SUPERVISOR																																																																																																																																																																																																																																	
0.6.	Location of the vehicle identification number:	Right chassis frame																																																																																																																																																																																																																																		
0.9.	Name and address of the manufacturer's representative (if any):	TEMSA Deutschland GmbH Buchäckerring 43 74906 Bad Rappenau, Germany

Miscellaneous																																																																																																																																																																																																																																				
51.	For special purpose vehicles: designation in accordance with Point 5 of Part A of Annex I to Regulation (EU) 2018/858 of the European Parliament and of the Council: N/A																																																																																																																																																																																																																																			
52.	Remarks ⁽¹⁶⁵⁾ Engine number: 4373109 , OTPA: MA17729 , Fuel Tank Capacity: 160 lt																																																																																																																																																																																																																																			

(1) Only for the approval under Regulation (EC) No. 715/2007 of the European Parliament and of the Council of June 20, 2007 on type approval of motor vehicles with respect to emissions from light passenger and commercial vehicles (Euro 5 and Euro 6) and on access to vehicle repair and maintenance information (OJ L 171, 29.6.2007, p. 1).

(4) Date where not applicable (there are cases where nothing needs to be deleted when more than one entry is applicable).

(8) In the case of axles fitted with wheels in dualtyre formation the number of wheels shall be counted as four.

(15) As defined in Regulation (EU) 2018/2144 of the European Parliament and of the Council of November 27, 2019 on type-approval requirements for motor vehicles and their trailers, and systems, components and separate technical units intended for such vehicles, as regards their general safety and the protection of vehicle occupants and vulnerable road users, amending Regulation (EU) 2018/858 of the European Parliament and of the Council and repealing Regulations (EC) No. 78/2009 and (EC) No. 78/2009 of the European Parliament and of the Council and Commission Regulations (EU) No. 631/2009, (EU) No. 468/2010, (EU) No. 672/2010, (EU) No. 1033/2010, (EU) No. 1009/2010, (EU) No. 1009/2010, (EU) No. 19/2011, (EU) No. 1009/2011, (EU) No. 459/2011, (EU) No. 653/2012, (EU) No. 130/2012, (EU) No. 347/2012, (EU) No. 351/2012, (EU) No. 1236/2012 and (EU) 2015/196 (OJ L 325, 16.12.2019, p. 1).

(114) The codes described in Part C of Annex I to Regulation (EU) 2018/858 shall be used.

(115) Excluding seats designated for use only when the vehicle is stationary and the number of wheelchair positions.

(116) Add the number of the Euro level and, if appropriate, the character corresponding to the provisions used for type-approval.

(117) Indicate the identification code.

(118) Indicate whether the vehicle is suitable for use in either right or left-hand traffic or both right and left-hand traffic.

(119) Indicate whether the speedometer or odometer fitted has metric or both metric and imperial units.

(120) This statement shall not restrict the right of the Member States to require technical adaptations in order to allow the registration of a vehicle in a Member State other than the one for which it was intended when the decision of the traffic is on the opposite side of the road.

(121) Entries 4 and 4.1 shall be completed in accordance with definitions 25 (Wheelbase) and 26 (Axle spacing) of Regulation (EU) No. 1230/2012 respectively.

(158) Masses must be rounded to the nearest whole digit.

(159) For hybrid vehicles, indicate both outputs.

(160) Optional equipment and additional tyre/wheel combinations under this letter can be added under entry 'Remarks'. If a vehicle is supplied with a complete set of standard wheels and tyres and a complete set of snow tyres (marked with a three peaked mountain and snowflakes symbol - 3PMS) with or without wheels, the snow tyres and their wheels where applicable shall be considered as additional tyre/wheel combinations irrespective of the wheel/tyres actually fitted to the vehicle.

(162) Repeat for the various fuels that can be used. Vehicles that can be fuelled with both petrol and gaseous fuel but in which the petrol system is fitted for emergency purposes or for starting only and the petrol tank of which cannot contain more than 150 of petrol will be regarded as vehicles that can only run on a gaseous fuel.

(163) In case of EURO VI dual-fuel engines and vehicles, repeat as appropriate.

(164) Safety emissions assessed in accordance with the applicable regulatory act or acts shall be stated.

(165) If the vehicle is equipped with 24GHz short-range radar equipment in accordance with Commission Decision of January 17, 2005 on the harmonisation of the 24GHz range radar spectrum band for the time-limited use by automotive short-range radar equipment in the Community (OJ L 21, 25.1.2005, p. 15), the manufacturer shall indicate here: 'Vehicle equipped with 24GHz short-range radar equipment'.

(166) The manufacturer may complete these entries either for international traffic or national traffic or both. For national traffic, the code of the country where the vehicle is intended to be registered shall be mentioned. The code shall be in accordance with standard ISO 3166-1:2013. For international traffic, the directive number shall be referred to (e.g. 96/53/EC for Council Directive 96/53/EC).

(167) Excluding seats designated for use only when the vehicle is stationary and the number of wheelchair positions. For coaches belonging to the vehicle category M3 the number of crew members shall be included in the passenger number.
