

Keeler Catalogue

All Keeler products are designed to offer the ultimate in professional performance.

They are the result of the constant pursuit of perfection, combining the aesthetic and ergonomic.

Keeler

Surgical Loupes

Magnification allows you to do a better job. If you can't see it, you can't work on it. The benefits of Keeler loupes are immediately clear: improved working posture, reduced eye strain and now, with the new Keeler Loupe Light, your working view is even clearer.

Laser aligned optics for magnification of superb optical quality, a lightweight aluminium assembly and a precise pupil alignment system make Keeler loupes the perfect choice for dental, surgical and veterinary professionals.

Let Keeler loupes take the strain

Keeler loupes are comfortable to wear and work with, helping to reduce eyestrain. By bringing your patients closer, you can improve your posture and avoid stooping.

Recommended working distances

Your Height	Sitting	Standing
< 5' 7" (150cm - 170cm)	34cm	34cm
5' 7" - 5' 10" (170cm - 178cm)	34cm	42cm
5' 10" - 6' 0" (178cm - 183cm)	42cm	46cm
> 6' 0" (183cm)	46cm	50cm

Patient comfort

Patients will feel more comfortable and at ease with increased personal space as you will work from a greater distance.

Multiple magnification levels

Keeler loupes offer performance matched to your requirements. Multiple magnification levels enable you to see more, spot problems earlier and offer even higher levels of precision treatment.

Mini Loupes

Standard Loupes

New Mini and Standard Loupes

New Mini Loupes Delivering 2.5x magnification.

Mini Loupes are designed to be ultra light and comfortable with minimal compromise in field of view. Absolute comfort is our achievement; excellent peripheral vision is the added benefit of our slim design.

Standard Loupes Delivering 2.0x, 2.5x and 3.0x magnification.

The true benefit of this system is ease of use. Movement whilst maintaining focal clarity is possible due to superior depth of field. The lightweight aluminium bar with individual pupillary adjustment provides the mounted loupes with stability and optimal focal alignment, eliminating headache and eyestrain.

Part numbers

Mini Loupes

2.5x Magnification

2112-P-1064	Mini Loupe 2.5x @ 34cm working distance
2112-P-1065	Mini Loupe 2.5x @ 42cm working distance

2112-P-1010	Standard Loupe 2.5x @ 34cm working distance
2112-P-1011	Standard Loupe 2.5x @ 42cm working distance
2112-P-1012	Standard Loupe 2.5x @ 46cm working distance
2112-P-1013	Standard Loupe 2.5x @ 50cm working distance

3.0x Magnification

2112-P-1022	Standard Loupe 3.0x @ 34cm working distance
2112-P-1023	Standard Loupe 3.0x @ 42cm working distance
2112-P-1024	Standard Loupe 3.0x @ 46cm working distance
2112-P-1025	Standard Loupe 3.0x @ 50cm working distance

Hi-Res Loupes and Keeler Sport Frames

Hi-Res Loupes
Delivering 3.0x magnification.

Keeler have designed a new high resolution loupe which exceeds the standards previously attained. The 5 element loupe gives a true 3x magnification with a 15% increased field of view and a visually flat field from edge to edge.

Protective Caps

Keeler Sport Frames
All Keeler loupes are available on the Keeler Sport Frame. Stylish, comfortable and attractive, the new Keeler frame is available in a choice of bright colours as shown. The frames will fit over many styles of glasses, or with the free insert, can be easily adapted to all prescriptions.

Sport Frames are available in the following finishes

Part numbers	
Hi-Res Loupes	
3.0x Magnification	
2112-P-1050	Hi-Res 3.0x @ 34cm working distance
2112-P-1051	Hi-Res 3.0x @ 42cm working distance
2112-P-1052	Hi-Res 3.0x @ 46cm working distance
2112-P-1053	Hi-Res 3.0x @ 50cm working distance
Accessories	
2112-P-8049	Protective Caps
2112-P-8057	+1D Near distance Caps

Hi-Res Loupes

Keeler Sport Frames

Prismatic Loupes

Prismatic Loupes

Delivering 3.5x, 4.5x and 5.5x magnification.

Higher magnification for advanced surgical procedures. Prismatic quality guarantees a true image. Edge to edge clarity and precise colour rendition are ideal for intricate applications. The Prismatic Loupe's precision lenses are treated with an anti-reflective coating to produce a superior image.

Part numbers

Prismatic Loupes

3.5x Magnification

2113-P-2004	Prismatic Loupe 3.5x @ 34cm working distance
2113-P-2005	Prismatic Loupe 3.5x @ 42cm working distance

5.5x Magnification

2113-P-2012	Prismatic Loupe 5.5x @ 34cm working distance
2113-P-2013	Prismatic Loupe 5.5x @ 42cm working distance
2113-P-2014	Prismatic Loupe 5.5x @ 46cm working distance

New Keeler Loupe Light

The New Keeler Loupe Light is one of the smallest and lightest available today. The LED illumination gives 34000 Lux of homogenous white light, ideal for both surgical and dental use, while coaxial illumination ensures shadow free viewing.

An optional yellow filter avoids the premature hardening of composites whilst power is provided by a Lithium-ion battery which will give up to 4 hours continuous use before a recharge is required.

Designed for comfort

Choose between the Keeler Sport frame or a headband mounted system to mount your loupes. Adaptable to all prescriptions.

Loupes with New Keeler Loupe Light in twin charger tray with optional yellow filter

Part numbers Keeler fit

2004-P-1007	Loupe Light Standard, 2 batteries and twin charger tray
2004-P-1008	Loupe Light Standard, 1 battery and twin charger tray
2004-P-1012	Loupe Light Portable, 1 battery and single charger tray

EC Declaration of Conformity to: Medical Device Directive 93/42/EEC

Legal Manufacturer:	Keeler Ltd Clewer Hill Road, Windsor, Berkshire SL4 4AA United Kingdom
Manufacturing Site(s):	Keeler Ltd Clewer Hill Road, Windsor, Berkshire SL4 4AA United Kingdom
EU Authorised Representative	Visiometrics, S.L., Vinyals, 131 08821 Terrassa, Spain
Device Description/Family:	Loupes or Surgical binoculars and Frames, reusable (See below Product Schedule)
EC Product Classification:	Class I, Annex IX, Rule 1
GMDN:	32692 – Surgical Binoculars, reusable A pair of lenses intended to be mounted onto a surgeon's spectacles to function as small telescope and provide a magnified image of the visual field during patient examination or surgical intervention. Also known as a surgical loupe, it may be mounted onto the spectacle frames and positioned in front of the spectacle lenses or attached directly onto each of the spectacle lenses. It may also be connected to an external light source or a head-worn light for visual field illumination. This is a reusable device. 32036 – Headband, reusable A device designed to be worn on the head of a healthcare provider for the mounting of another device, most commonly a head-worn light or a binocular indirect ophthalmoscope (BIO), so that the mounted device will remain directed in the user's line of vision despite head movement. It is typically adjustable for a custom fit. This is a reusable device.

We herewith declare, as the sole manufacturer, that the product(s) listed above and detailed in the attached Product Schedule meet the provisions of the Council Directive 93/42/EEC of 14 June 1993 as amended, concerning medical devices.

Applied Directives:	• 93/42/EEC Medical Device Directive • EU 2015/863 Restriction of Hazardous Substances (RoHS 3) • 2013/172/EU Unique Device Identification (UDI) • 2012/19/EU The Waste Electrical and Electronic Equipment (WEEE) Directive • MEDDEV 2.7/1 Rev. 4
Applied Standards:	• BS EN ISO 13485:2016 • BS EN ISO 14971:2012 • BS EN 15223-1:2016 • BS EN ISO 15004-1:2009 • BS EN ISO 9022-2:2015 • BS EN ISO 9022-3:2015 • BS EN ISO 1639:2009 • BS EN ISO 10993-1: 2009
