## Letter of recommendation

Hereby, we are sending you this letter of recommendation for the Public Association "Association for Entrepreneurial Education and Development" (previous name "Association of Business Women from the municipality of Bălți").

East Europe Foundation has had a long-term partnership relationship of implementing projects in two areas: developing the economic skills of young entrepreneurs through the creation of the "Business Skills Hub" Business Support Center and increasing opportunities of social inclusion of disadvantaged people, through the expansion of the social enterprise "Credem Eco SRL".

During our collaborative experience, the association showed responsibility in achieving the established commitments, actively getting involved in joint activities. EEF appreciates the way the team sets ambitiously its goals, with a lot of confidence, using different tools and finding different solutions to achieve the desired results.

Over the years, the association has developed its technical capabilities and accumulated sufficient experience in promoting entrepreneurship, including social entrepreneurship. The association has a dedicated space, a consolidated team, including a team of trainers, consultants who have in-depth knowledge of project management, including identifying and assessing needs, planning actions, developing training programs, monitoring and evaluation activities, consulting and mentoring.

As partners, we will be very happy if the Business Support Center created by AFAD with EEF support from EU financial resources will become a platform for startups created by refugees from Ukraine.

Considering the technical and material base at its disposal, the management and the relevant experience it has, we recommend the Association for Entrepreneurial Training and Development as a reliable partner, which will increase the results of the project implemented by you.

With consideration,

Sorin Mereacre,  
President of East Europe Foundation
