| <b>Description</b>                | Blender Bags          |
| <b>Country of Origin</b>          | Manufactured in China |
| <b>Date of Issue (yyyy-mm-dd)</b> | 2021-11-24            |

| Catalogue Number | Type                     | Capacity [ mL ] | Dimension [ mm ] |
|------------------|--------------------------|-----------------|------------------|
| 129-0732         | Plain bags               | 80              | 105×150          |
| 129-0728         | Plain bags               | 400             | 300×190          |
| 129-0729         | Plain bags               | 400             | 300×190          |
| 129-0731         | Plain bags               | 3500            | 380×510          |
| 129-0733         | Bags with lateral filter | 400             | 300×190          |
| 129-0730         | Bags with lateral filter | 400             | 300×190          |
| 129-0734         | Bags with lateral filter | 400             | 300×190          |

## Quality System Compliance

Products are manufactured under the **ISO 13485:2016** standard. Products are inspected and controlled through whole production processing in accordance with current applicable product specifications and QC SOP.

## QC Testing

Representative products samples are collected and inspected in accordance with current applicable QC requirements.

|                  |   |                                                                            |
|------------------|---|----------------------------------------------------------------------------|
| Blending Test    | : | Bags have to be resistant for 3 minutes blending (Frequency:times/second). |
| Welding strength | : | > 12N/15 mm.                                                               |
| Tensile Strength | : | > 25MP/10 mm.                                                              |
| Elongation       | : | >600%.                                                                     |

## Product Specifications

|                                |                                                                                                                                                                                                                                                                                                                                                                             |
|--------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Material</b>                | <p>Mixture of 100% Virgin Raw material Low Density Polyethylene (LDPE) + High Density Polyethylene (HDPE).</p> <p>Raw material used to produce these products are in accordance with FDA regulation 21 CFR § 177.1520, for use in contact with food applications</p>                                                                                                        |
| <b>Sterilization</b>           | <p>Product labeled as sterile is gamma irradiated and dose released upon ISO11137 recommended practices in effect at the time of validation. Products labeled sterile meet a minimum requirement of 10<sup>-3</sup> SAL with a specified dose range of 10–40 kGy.</p>                                                                                                       |
| <b>ATP Assay</b>               | Not applicable.                                                                                                                                                                                                                                                                                                                                                             |
| <b>DNase &amp; RNase Free</b>  | Not applicable.                                                                                                                                                                                                                                                                                                                                                             |
| <b>BSE/TSE</b>                 | <p>No use of any raw material produced from or substances derived from animal origin. The manufacturing process of the product does not use any ingredient of animal origin and no material derived from or exposed to animals affected by or under quarantine for transmitting Animal Bovine Spongiform Encephalopathy/Spongiform Encephalopathy (BSE)/(TSE).</p>          |
| <b>Cytotoxicity</b>            | Not applicable.                                                                                                                                                                                                                                                                                                                                                             |
