**NOVA EVENT**  
CREATIVE & TECHNICAL SUPPORT

## Leading Event Production Company in Moldova & Eastern Europe

Nova Event is a **full-scale technical production company** delivering high-impact public, corporate and international events.

We combine precision engineering, stage design and structured project management to ensure flawless execution **from governmental summits to arena concerts.**

Trusted by state institutions, global brands and international artists.

## Company Overview

Founded in 2015,

Nova Event has become one of the leading technical production companies in the Republic of Moldova

### Key Facts:

- 400+ large-scale events annually
- 10+ years of production expertise
- Projects with audiences from 500 to 20,000+
- Governmental, international and commercial portfolio
- Full in-house technical equipment inventory
- Dedicated technical and operational team

*We provide end-to-end solutions from concept engineering to full on-site execution.*

## Technical Infrastructure

Nova Event operates its own professional-grade equipment inventory, allowing full control over quality, timing and scalability.

- Professional **LED screens**
- Large-scale **stage constructions**
- Concert-grade **sound systems**
  - Intelligent **lighting systems**
- Power distribution and **backup solutions**
- **Live streaming** & broadcast integration

*Our infrastructure allows us to execute parallel projects and scale events according to audience size and complexity.*

# Structured Execution Framework

Every event is managed through a structured production cycle

1. Technical assessment & feasibility
2. Engineering & design planning
3. Budget optimization
4. Logistics coordination
5. Risk assessment & safety planning
6. On-site technical supervision
7. Post-event reporting

## **Our methodology ensures:**

- strict deadline compliance
- budget transparency
- operational stability
- risk mitigation

## SAFETY & COMPLIANCE

**Nova Event adheres to all national safety regulations and technical standards.**

- Certified installation procedures
- Electrical safety compliance
- Fire safety coordination
- Governmental event protocols
- High-security event experience

*We have extensive experience operating under state-level security requirements.*
