

Netac

N600S 2.5 inch SSD

Highlights

- Read/write speed up to 560/520MB/s
- 3D TLC NAND flash are applied
- Supports SLC Caching technology
- Supports S.M.A.R.T./TRIM Command/NCQ
- 5-year limited warranty

Best-Fit Applications

- Laptops
- Desktop PCs

*NV600S is designed for use in consumer notebooks and desktops, it is not recommended for use in industrial or server applications.

N600S SSD with implementing 3D TLC NAND an advanced controller, and is also designed the response speed of notebooks and desktops delivers read speeds up to 560MB/s and write to 520MB/s for fast startup, loading, transmission. It can easily upgrade the massive wide compatibility for laptops, desktops, and computers.

High-speed Interface

With SATAIII 6Gb/s high-speed interface, the speed can be up to 560MB/s and drastically reduce boot time.

Stabilization Performance

With functions permanent and stable, the wide 3D NAND Chips can adapt various and harsh environment.

Massive Expansion

Provide a variety of capacity options from 64GB to 480GB to meet different storage needs.

Five-year Limited Warranty

To ensure the product's compatibility and reliability, every Netac SSDs is backed by a series of rigorous tests and with a 5-year limited warranty.

As an industry-leading manufacturer of memory and storage, Netac has been always been dedicated to the providing the best products and services.
