

MATRICE 300 SERIES PART11 – UPWARD GIMBAL CONNECTOR

DESCRIPTION

The DJI Matrice M300 Upward Gimbal Connector is a mounting device that allows the attachment of one compatible, upward-facing payload or camera respectively on the topside of the drone. The mounting device is made of robust plastic and comes with a USB Type-C connection cable. Using the Upward Gimbal Connector makes it possible to capture images and videos, or other data, from a position above the drone.
