SUMMARY

A highly skilled full stack web developer with over 10 years of experience in building and managing complex web applications. Expertise in **Drupal** and **WordPress** development, including custom module creation, theming, site architecture, and migrations. Successfully delivered numerous high-profile projects for governmental institutions and organizations. Extensive experience with modern web technologies such as **HTML5**, **CSS3**, **JavaScript**, **React**, and **PHP**. Passionate about creating responsive, user-friendly web applications with a focus on performance and scalability.

WORK EXPERIENCE

Web Developer / Tester Software, PNA SOFTWARE / Chisinau 2021 - Present

- Designed and developed landing pages, guided designers with best practices for responsive web design, and collaborated with internal and external teams to implement new web strategies.
- Led major projects on Drupal for **ANSA**, **GPO**, **APO**, **PCCOCS**, and **ANPCV**. Responsibilities included custom module development, theme creation, and site architecture.
- Managed **WordPress** projects, including the development of sites for **CICDE**, **E-DNC**, **ZIPHOUSE**, **DIN INIMA**, **APIUS**, and **MedExpert**. Handled both front-end and back-end tasks, including theme customization and plugin development.
- Directed software development initiatives for **MIDR**, **CAPC**, **CICDE**, and **e-Monitoring**, focusing on robust, scalable solutions that align with client needs.

Developer, Freelance / London 2018 - Present

- Developed web solutions for various web applications, collaborating closely with data science teams to optimize product recommendation engines.
- Enhanced user engagement by improving functionalities, resulting in increased user time on site.
- Participated in all stages of product development, from concept through to feature rollout.

Web Developer, WDI / London 2013 - 2018

- Managed front-end development for six client websites, improving their user interface and overall performance.
- Developed internal tools using Node.js to automate quality assurance and monitoring, resulting in a 7% increase in click-through rates.

TDD Web Developer, Classic Informatics / London 2010 - 2013

- Worked on building new **Angular** components for customer-facing web applications, improving average user time on page.
- Enhanced test coverage for new features, leading to an 8% reduction in customer complaints.

EDUCATION

Bachelor of Computer Science 2000 - 2004

Moldova State University, Chisinau, Republic of Moldova

- Major in Informational Management
- Series AL No.0075407
