Date 01 November 2021

**ICAR Certificate for FlexoPlus conventional plastic ear tag
for re-certification of product code A003.**

**The device complies with the ICAR standards
for device material composition and environmental performance.
Not certified for machine readability.**

This certificate is valid for five (5) years from the date of this letter.

ICAR, as the international standard setting organization for animal identification devices, is pleased to issue this letter as the ICAR Certificate for the above device which successfully passed the test laid down in the ICAR Guidelines, Section 10, [Procedure 4](#) 'Testing of Conventional Plastic Ear Tags'. The test report is attached (**report number 2109-0029 by DLG, Germany**).

Please note that the ICAR certification is based on satisfaction of the conditions stipulated in Section 10, Procedure 4, heading 5.4.6 'ICAR conditions for certification of conventional permanent plastic ear tags' of the ICAR Guidelines.

If there are any questions, please feel free to contact us.

Best regards,

Martin Burke
ICAR Chief Executive

Cc: Members of the ICAR Animal Identification Sub-Committee

Important note: ICAR would like to alert users to the increasing cases of falsified Certificates found on the market. In order to verify that a product is certified, please always check the relevant ICAR [webpage](#) and/or scan the QR code found here.
