

## SPECIFICATIONS & PACKAGE

PRODUCT TYPE	SIZE, cmxcm	REF
<b>Kanstat® ORJ</b> 	1.25 x 5	KL02
	5 x 7.5	KL04
	5 x 35	KL06
	10 x 20	KL08
<b>Kanstat® FABRIC</b> 	2.5 x 2.5	KH02
	2.5 x 7.5	KH03
	5 x 7.5	KH04
	7.5 x 10	KH06
	15 x 22.5	KH08
<b>Kanstat® FELT</b> 	2.5 x 5	KW02
	5 x 10	KW04
	10 x 10	KW07
<b>Kanstat® FIBRIL</b> 	2.5 x 5	KB02
	5 x 10	KB04
	10 x 10	KB07

## Kanstat® ORJ

Standard Use

- Good visibility of surgical site due to sheer knit structure
- High flexibility and drapeability
- Kanstat® is bactericidal in vitro against a wide range of microorganisms

## Kanstat® FIBRIL

Improved Conformability

- Easy peels off in any thickness and quantity required
- High flexibility and conformability to surgical site (e.g. irregular shape of wound and hard to reach areas)
- Can be shaped or molded to various shapes for optimal adherence or used in multiple sites

## Kanstat® FABRIC

For Heavier Bleeding

- More dense than Kanstat® ORJ
- Suitable for heavier bleeding with faster hemostasis (incl. emergency and trauma)
- Density suitable for suturing
- No fabric memory effects

## Kanstat® FELT

Maximized effect & superior handling (both open and laparoscopic surgery)

- Non-Woven structure increases surface contact to bleeding site
- More advanced conformability & superior handling
- Easy to deploy and manipulate in laparoscopic surgery

## EFFICACY TEST

### hemostatic effect is proved in vivo

Proved to be effective achieving hemostasis after liver resection in porcine model

Spleen resection surgery

In porcine hepatic model

Liver resection surgery

Kanstat® ORJ

## ANTIBACTERIAL EFFECT

### helps to minimize risk of infection

Attached sample

After removal of the sample

Kanstat® has antibacterial activity in vitro against a broad spectrum of microorganisms including antibiotic resistant bacteria, such as methicillin resistant *Staphylococcus aureus* and methicillin resistant *Staphylococcus epidermidis*

- › Conforms to the requirements of USP United States Pharmacopeia "Oxidized Regenerated Cellulose (ORC)" standard
- › ORC Absorbable Hemostat has been long and widely used in a variety of surgeries
- › Plant derivative product with minimal tissue reaction
- › Does not contain human or animal originated tissue
- › Has antibacterial effect
