DiaSys StarDust MC15

Instruments

The Versatile Workhorse

Technical specifications:

- Spectral range: 320 – 670 nm
- Standard filters: 340, 405, 500, 546, 578, 630, 670 nm (one free space for an additional filter)
- Mono and bichromatic readings
- Band width: Less than 8 nm
- Light source: 20 W halogen lamp
- Detector: Solid phase
- Photometric accuracy: $\pm 2\%$ from 0 – 2.5 Abs
- Measuring range: 0 – 2.5 Abs
- Minimum reagent volume: 400 μ l
- External connection: RS232 C
- Power: AC 220V 50Hz 200VA / AC 110V 60Hz 200VA (optional)
- Dimension: 58 x 57 x 20 cm
- Weight: 20 kg

Order information:

Product No.	Description	Pack size
910103	StarDust MC15 Analyser Unit	each
910546	Multicuvette racks	96
910547	Printer paper roll	6
910548	Workstation	each

External software available on request in different language versions
