<sup>1</sup> Effective Date refer to product that is available to market (RTS/Launch)

<sup>2</sup> Revision Date refer to the Datasheet has been updated to capture the latest information

# I. Statement of Compliance

This product has been determined to be compliant with the applicable standards, regulations, and directives for the countries where the product is marketed. The product is affixed with regulatory marking and text as necessary for the country/agency. Dell manufacturers and markets Multimedia Equipment (MME), Information Technology Equipment (ITE), Audio Visual Equipment (A/V), Industrial, Scientific, Medical Equipment (ISM) or combinations of these. Generally, products Electromagnetic Compatibility (EMC) and Product Safety compliance is based on International IEC and CISPR standards and their national equivalent along with national standards for Radio (wireless), Telecommunications (Modem) and Energy. Dell products have been verified to comply with the Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU of the European Parliament and the Council. Dell product does not contain any of the restricted substances in concentrations and applications not permitted by the RoHS Directive.

EMC Emissions Class refers to one of the following use environments:

- EMC Class B product is intended for use in residential/domestic environments but may also be used in nonresidential/non-domestic environments.
- EMC Class A product is intended for use in non-residential/non-domestic environments. Class A product may also be utilized in residential/domestic environments but may cause interference and require the user to take adequate corrective measures.

For Product Safety and EMC compliance, this product has been assigned a unique regulatory model and regulatory type that is imprinted on the product regulatory labeling to provide traceability to the regulatory approvals noted on this datasheet. This datasheet applies to any product that utilizes the assigned regulatory model and type including marketing names other than those listed on this datasheet. Dell products with the CE marking have been verified to comply with Energy Related Products (ErP) Directive 2009/125/EC of the European Parliament and of the Council. [https://www.dell.com/ErP\\_User\\_Information](https://www.dell.com/ErP_User_Information). REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), Regulation (EC) 1907/2006 of the European Parliament and of the Council is the European Union's (EU) chemical substances regulatory framework. Dell complies with the REACH regulation. For information on SVHC (Substances of Very High Concern), see [www.dell.com/REACH](http://www.dell.com/REACH). This products compliance documentation, such as this datasheet and the European Union Declaration of Conformity are available on the product support page, manuals tab <http://www.dell.com/support>. Additional compliance documentation for the product is available upon submitting a request at <https://support.dellproductcompliance.com> Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

# II. Global Environmental Information

| Environmental (Voluntary Marks) |                                       |                            |
|---------------------------------|---------------------------------------|----------------------------|
| Country                         | Approval                              | Compliance                 |
| Global                          | ENERGY STAR (Configuration Dependent) | 8.0                        |

| South Korea                            | South Korea MEPS          |

### III. NFPA 99 Conformity

Select Dell systems have been tested and found to comply with the touch current requirements as defined in 10.3.5 of National Fire Protection Association standard NFPA 99:2021. The touch current does not exceed 100 µA with ground wire intact (if a ground wire is provided) and 500 µA with ground disconnected at 127 V AC, 60 Hz when tested in accordance with 10.3.5 of NFPA 99: 2021. To determine if this product complies with the above requirements, send a request to <https://support.dellproductcompliance.com>. Please include product identifiers such as marketing name, regulatory type and country for which compliance information is needed.

### IV. Declaration of Similarity

| Object of the Declaration |                                  |
|---------------------------|----------------------------------|
| Product Type              | Portable Computer                |
| Regulatory Model Number   | P174G                            |
| Regulatory Type Number    | P174G002                         |
| Trade Name/ Trademark     | DELL                             |
| Marketing Name(s)         | Latitude 7450 / Latitude 7450-01 |

Dell Inc. hereby declares that the products identified by the product designations listed in this declaration are strictly identical in design (shape, opening, etc.) components, materials, manufacturing process, and markings except for product designation – Trade Name and/or Trade Mark as specified in this declaration.

The products may have very minor differences which do not impact the level of conformity. All products identified by the product designations in this declaration have the same level of conformity according to the certificate(s) provided.

The Trade Name / Trademark and/or Marketing Name(s) are the property of Dell Inc. Any differences in the product designation are for marketing purposes only.

|               |  |                                  |   |
|---------------|--|----------------------------------|---|
| Date of Issue | March 5, 2024  | Signature on behalf of Dell Inc. | Dell Inc.<br>Dell Global Product Compliance and Environmental Affairs |
| Title         | Dell Global Product Compliance and Environmental Affairs |                                  |   |

## V. Power Cords and User Documentation

Dell products are provided with the power cord and user documentation suitable for the intended country of delivery. Products that are relocated to other countries should use nationally certified power cords and plugs to ensure safe operation of the product. Contact Dell to determine if alternate power cords or user documentation in other languages is available for your market.

## VI. Trade (Import/Export) Compliance Data

For any questions related to importing & exporting classification of Dell products, please obtain information from the following link: <http://www.dell.com/learn/us/en/uscorp1/import-export> or send email request to [WW\\_Export\\_Compliance@dell.com](mailto:WW_Export_Compliance@dell.com). Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

## VII. Product Dimensions and Weight

| Depth, mm/cm | Width, mm/cm | Height, mm/cm                                  | Weight, kg                                 |
|--------------|--------------|--|--|
| 222.75 mm    | 313.0 mm     | Front height: 18.19 mm<br>Rear height: 17.1 mm | 1.33 Kg (depending upon installed options) |

## VIII. Product Energy Performance Data

ErP Lot 3, Lot 26 and ErP Lot 9 information is in Appendices A, B and C respectively.

For additional information on how Dell's commitment to energy efficiency benefits you go to: [Reducing your Footprint](#)

For additional information on ENERGY STAR models refer to the following database: [ENERGY STAR Product Finder](#)

The battery[ies] in this product cannot be easily replaced by users themselves.

**Computer:**

| Service Level                       | Energy Consumption (Wattage) | BTU Calculation | Description of Service Level   |
|-------------------------------------|------------------------------|-----------------|--|
| <b>CPU stressed</b>                 | 26.50                        | 90.63           | The system is running programs to maximize the CPU utilization and/or running programs to maximize the power consumption |
| <b>Short Idle</b>                   | 4.68                         | 16.01           | As specified per EPA ENERGY STAR   |
| <b>Long Idle</b>                    | 2.84                         | 9.71            | As specified EPA ENERGY STAR   |
| <b>S3 "Sleep" or Modern Standby</b> | 0.74                         | 2.53            | S3=Suspend-to-RAM, or <a href="#">Modern Standby</a>   |
| <b>Off/Standby</b>                  | 0.45                         | 1.54            | System is turned off but still connected to its AC power source.   |

**Energy Consumption<sup>3</sup>**

Energy efficiency benefits the environment and lowers the total cost of equipment ownership by reducing power consumption. Click [here](#) for Dell's Energy efficient products.

\*Energy Consumption results are based solely upon the laboratory testing of the System Configuration and in accordance to the described service level. Energy consumption is tested at 230 Volts / 50 Hz.

Declared noise emission values in accordance with ISO 9296. Testing performed in compliance with ISO 7779 with operating modes defined by ECMA-74.

## IX. Product Materials Information

Information on Dell's material use is available [here](#).

Dell's Restricted Material for Use guidance document is available [here](#).

|   |   |

#### Flame Retardants Used in Motherboard

| Part             | List the Flame Retardants   |
|------------------|---|
| PCB <sup>6</sup> | CCL<0.1%, PP<5%, OrganicphosphorusreactiveFRS 0-4%,<1000ppm, DOPO <1000ppm, Phosphorus FRs 9,10-Dihydro-9-oxa-10-phosphaphenanthrene 10-oxide |

#### Flame Retardants Used in Mechanical Plastic Parts<sup>7</sup>

The external case material is >PC<, Aluminum.

| Resin Material Name | Plastic Part Marking per ISO 11469:2016 | Flame Retardant Marking per ISO 1043-4 (i.e. FR(16), FR(40), etc.) | List the Flame Retardants used on (i.e. BPA, etc) | List applicable R-Phrase(s) or Hazard Statement(s) per EU Directive 67/548/EEG or 1272/2008 |
|---------------------|---|--|---|---|
| D251                | >PC-GF20FR(40)<                         | FR(40)   | Organo Phosphate                                  | NA  |
| RCM6134             | >PC+ABS-TD5FR(40)(REC)<                 | FR(40)   | Organo Phosphate                                  | NA  |

#### Mercury Information

| Number of bulbs | Average per bulb |
|-----------------|------------------|
| 0               | N/A              |

<sup>4</sup> This product contains x% post-consumer recycled plastic including closed loop recycled plastics (ITE-derived)\* % Declaration to be the same in ENV0025 for Display & CP

<sup>5</sup> Bio-based plastics are fully or partially made from biological resources, rather than fossil raw materials. They are not necessarily compostable or biodegradable. It is important to examine the full life cycle of bio-based plastics, to ensure that they are beneficial to the environment beyond the reduction in use of fossil resources. This includes littering and changes in land use

<sup>6</sup> PCB (Printed Circuit Board) is a blank circuit board with no electronic components attached

<sup>7</sup> According to ISO 11469 Marking of plastics products weighing 25 grams or more must be marked. Plastic Parts weighing less than 25 grams and having adequate surface area for coding should be marked.

| PET                   | 8                 | Recycled content   | 0%                     | 0%         | 0%          |
| Other, please specify | 6                 |  |                        |            |             |

## XI. Batteries

Below is a listing of batteries that could be present in the product:

| Battery Description – Batteries                 | Battery Type    | Battery Weight (kg) | Rating |
|---|-----------------|---------------------|--------|
| ML1220 coin cell (DBV)                          | Lithium         | 0.001               | 18 mAh |
| ML1220 coin cell (JHT)                          | Lithium         | 0.001               | 18 mAh |
| ML1220 coin cell (KTS)                          | Lithium         | 0.001               | 17 mAh |
| Rechargeable Battery 2 cell (BYD/ATL/CosMX/LGC) | Lithium-polymer | 0.155               | 38 Wh  |
| Rechargeable Battery 3 cell (BYD/NVT/ATL/CosMX) | Lithium-polymer | 0.227               | 57 Wh  |

## XII. Design for Environment

Dell systems are, when applicable, designed for easy assembly, disassembly, and servicing. For more information on Dell's Environmental product attributes click [here](#).

## XIII. France Repairability Index

On January 1, 2021, France introduced a new Repairability Index for five categories of electronic devices, including laptops. The aim of this new Repairability Index is to inform customers about available repair options for a product prior to purchase.

The Repairability Index is a score ranging from 0 to 10/10, calculated based on five criteria:

1. **Documentation:** A score determined by the manufacturer's commitment to make technical documents available free of charge, in number of years, to repairers and consumers.
2. **Disassembly, tools, and fasteners:** A score determined by how easy it is to disassemble the product, the type of tools needed, and the characteristics of the fasteners.
3. **Availability of spare parts:** A score determined by the length of time the manufacturer commits to make spare parts available for the product and the time it takes to deliver them.
4. **Price of spare parts:** A score determined by the ratio of the sale price of spare parts to the price of the product.
5. **Product specific:** A score determined by sub-criteria specific to the product category concerned, which may include availability of remote support, software updates, and resets.

The Repairability Index for this product and the parameters used to calculate the Repairability Index, are available on the product page.

## XIV. Recycling / End-of-Life Service Information

Take back and recycling services are offered for this product in certain countries. If you want to dispose of system components, please visit [How to Recycle | Dell Technologies US](#) and select the relevant country.

# Appendix A: ErP Lot 3 Product Energy Consumption Information

## European Union (EU) ErP Lot 3 (Commission Regulation (EC) No. 617/2013)

The ErP Lot 3 regulation includes requirements for certain product specific information to be provided by the manufacturer. This is applicable to Desktops, Integrated Desktops (All-in-One), Notebooks, Tablets, Slates, Notebook Thin Clients, Desktop Thin Clients, Workstations, Mobile Workstations, and Small-Scale Servers.

ErP Lot 3 provides certain exclusions based upon product type, screen size, and/or the amount of power consumed in idle mode. Product energy and acoustic information might be reported for products that are out of scope of ErP Lot 3 for informational purposes only.

Additional information on ErP Lot 3, Lot 7 & Lot 26 available [here](#).

# I. Statement of Compliance

This product has been determined to be compliant with the applicable standards, regulations, and directives for the countries where the product is marketed. The product is affixed with regulatory marking and text as necessary for the country/agency. Dell manufacturers and markets Multimedia Equipment (MME), Information Technology Equipment (ITE), Audio Visual Equipment (A/V), Industrial, Scientific, Medical Equipment (ISM) or combinations of these. Generally, products Electromagnetic Compatibility (EMC) and Product Safety compliance is based on International IEC and CISPR standards and their national equivalent along with national standards for Radio (wireless), Telecommunications (Modem) and Energy. Dell products have been verified to comply with the Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU of the European Parliament and the Council. Dell product does not contain any of the restricted substances in concentrations and applications not permitted by the RoHS Directive.

EMC Emissions Class refers to one of the following use environments:

- EMC Class B product is intended for use in residential/domestic environments but may also be used in nonresidential/non-domestic environments.
- EMC Class A product is intended for use in non-residential/non-domestic environments. Class A product may also be utilized in residential/domestic environments but may cause interference and require the user to take adequate corrective measures.

For Product Safety and EMC compliance, this product has been assigned a unique regulatory model and regulatory type that is imprinted on the product regulatory labeling to provide traceability to the regulatory approvals noted on this datasheet. This datasheet applies to any product that utilizes the assigned regulatory model and type including marketing names other than those listed on this datasheet. Dell products with the CE marking have been verified to comply with Energy Related Products (ErP) Directive 2009/125/EC of the European Parliament and of the Council. [https://www.dell.com/ErP\\_User\\_Information](https://www.dell.com/ErP_User_Information). REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), Regulation (EC) 1907/2006 of the European Parliament and of the Council is the European Union's (EU) chemical substances regulatory framework. Dell complies with the REACH regulation. For information on SVHC (Substances of Very High Concern), see [www.dell.com/REACH](http://www.dell.com/REACH). This products compliance documentation, such as this datasheet and the European Union Declaration of Conformity are available on the product support page, manuals tab <http://www.dell.com/support>. Additional compliance documentation for the product is available upon submitting a request at <https://support.dellproductcompliance.com> Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

## II. Global Environmental Information

| Environmental (Voluntary Marks)  |                                 |   |
|--|---------------------------------|---|
| Country  | Approval                        | Compliance  |
| Global   | ENERGY STAR                     | Certified   |
| Global   | TCO Certified                   | Certified   |
| China  | CECP                            | Certified   |
| China  | CEC                             | Certified   |
| Taiwan   | Greenmark                       | NA  |
| Varies by Country<br>See <a href="https://www.epeat.net">EPEAT.net</a> | EPEAT (Configuration Dependent) | Refer to EPEAT.net for specific registration levels and countries |

Adapter Certification and Declaration (Applicable only if product uses an external adapter)

This model does not use external adapter.

| Adapter Certification and Declarations |                            |

| European Union                         | Regulation EC No 2019/1782 |
| South Korea                            | South Korea MEPS           |

## III. NFPA 99 Conformity

Select Dell systems have been tested and found to comply with the touch current requirements as defined in 10.3.5 of National Fire Protection Association standard NFPA 99:2021. The touch current does not exceed 100  $\mu$ A with ground wire intact (if a ground wire is provided) and 500  $\mu$ A with ground disconnected at 127 V AC, 60 Hz when tested in accordance with 10.3.5 of NFPA 99: 2021. To determine if this product complies with the above requirements, send a request to <https://support.dellproductcompliance.com>. Please include product identifiers such as marketing name, regulatory type and country for which compliance information is needed.

## IV. Power Cords and User Documentation

Dell products are provided with the power cord and user documentation suitable for the intended country of delivery. Products that are relocated to other countries should use nationally certified power cords and plugs to ensure safe operation of the product. Contact Dell to determine if alternate power cords or user documentation in other languages is available for your market.

## V. Trade (Import/Export) Compliance Data

For any questions related to importing & exporting classification of Dell products, please obtain information from the following link: <http://www.dell.com/learn/us/en/uscorp1/import-export> or send email request to [WW\\_Export\\_Compliance@dell.com](mailto:WW_Export_Compliance@dell.com). Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

## VI. Product Dimensions and Weight

For Display & Peripheral products, please refer to the product edoc/user manual /spec on Dell.com for weight and dimension information.

## VII. Product Energy Performance Data

### Energy Consumption<sup>3</sup>

Energy efficiency benefits the environment and lowers the total cost of equipment ownership by reducing power consumption. Click [here](#) for Dell's Energy efficient products.

<sup>3</sup> This document is informational only and reflects laboratory performance. Your product may perform differently, depending on the software, components, and peripherals you ordered. Accordingly, the customer should not rely upon this information in making decisions about electrical tolerances or otherwise. No warranty as to accuracy or completeness is expressed or implied. For more details visit <https://www.dell.com/learn/us/en/uscorp1/dell-environment>

\*Energy Consumption results are based solely upon the laboratory testing of the System Configuration and in accordance to the described service level. Energy consumption is tested at 230 Volts / 50 Hz.

## VIII. Product Materials Information

Information on Dell's material use is available [here](#).

Dell's Restricted Material for Use guidance document is available [here](#).

|  |   |
|--|---|
| Mechanical plastic parts are BFR/PVC free  | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA   |
| Marking of plastics parts is in accordance with ISO 11469 (see below)  | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA   |
| Printed circuit boards (without components) >0.5g are BFR PVC free   | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA   |
| Insulation materials of external electrical cables are PVC free  | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No   |
| Product is BFR/PVC Free (Accessories & Options may not be BFR/PVC-Free)  | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No   |
| Postconsumer recycled Plastics material content <sup>4</sup> is used in the product<br><br>If yes, indicate the percentage of the postconsumer recycled material per total plastic weight of the product | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA<br><br><b><u>84.4</u> % PCR (Post Consumer Recycled) material in total plastic of product</b> |
| Biobased Plastic material <sup>5</sup> content is used in the product.<br><br>If yes, either indicate the percentage of the biobased plastic material per total plastic weight of the product            | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> NA<br><br><b><u>0</u> % biobased plastic material in total plastic of product</b>                |

### Flame Retardants Used in Motherboard

| Part              | List the Flame Retardants                 |
|-------------------|---|
| PCB <sup>6</sup>  | Halogen-free Organic Phosphates Compounds |
| PCBA <sup>7</sup> | Halogen-free (BR/CL-free) Flame retardant |

<sup>4</sup> This product contains x% post-consumer recycled plastic including closed loop recycled plastics (ITE-derived)\* % Declaration to be the same in ENV0025 for Display & CP

<sup>5</sup> Bio-based plastics are fully or partially made from biological resources, rather than fossil raw materials. They are not necessarily compostable or biodegradable. It is important to examine the full life cycle of bio-based plastics, to ensure that they are beneficial to the environment beyond the reduction in use of fossil resources. This includes littering and changes in land use

<sup>6</sup> PCB (Printed Circuit Board) is a blank circuit board with no electronic components attached

<sup>7</sup> PCBA (Printed Circuit Board Assembly) is a completed assembly that contains all of the components required for the board to function as needed for the desired application

## Flame Retardants Used in Mechanical Plastic Parts<sup>8</sup>

The external case material is PC+ABS, ABS

| Resin Material Name | Plastic Part Marking per ISO 11469:2016 | Flame Retardant Marking per ISO 1043-4 (i.e. FR(16), FR(40), etc.) | List the Flame Retardants used on (i.e. BPA, etc) | List applicable R-Phrase(s) or Hazard Statement(s) per EU Directive 67/548/EEG or 1272/2008 |
|---------------------|---|--|---|---|
| PC+ABS              | >PC+ABS-FR(40)(REC85)<                  | FR(40)   | Halogen-free Organic Phosphates Compound          | None  |
| ABS                 | >ABS(REC85)<                            | None   | N/A   | None  |
| ABS                 | >ABS(REC95)<                            | None   | N/A   | None  |

## Mercury Information

| Number of bulbs | Average per bulb |
|-----------------|------------------|
| 0               | 0 mg             |

## Additional information:

- Refer to Dell Technologies' [Chemical Use Policy](#) for more information on RoHS and REACH.
- Products MSDS (Material Safety Data Sheets):
  - Batteries: [Battery MSDS Documentation and Declaration](#)
  - Printer Toner and Ink: [MSDS Documentation](#)

<sup>8</sup> According to ISO 11469 Marking of plastics products weighing 25 grams or more must be marked. Plastic Parts weighing less than 25 grams and having adequate surface area for coding should be marked.

## IX. Packaging

Information on Dell's sustainable packaging effort available [here](#). Additional materials restricted in Packaging as per Dell's Material Restricted for Use Standard document can be found at [www.dell.com/restrictedsubstanceslist](http://www.dell.com/restrictedsubstanceslist).

| Packaging Materials                         | Total Weight of each Packaging Material (kg) | % Post Consumer Recycled Material <sup>9</sup> used | % Pre-Consumer Material <sup>10</sup> used |
|---|--|---|--|
| Carton box (Corrugated Fibred Board)        | 0.985  | 92  | 0  |
| Paper Box (Paper Board)                     | 1.66   | 92  | 0  |
| Cushion – Expanded Polyethylene (EPE)       | 0.50   | 0   | 0  |
| Plastic bags – Others (Mixture LDPE & HDPE) | 0.042  | 0   | 0  |

## X. Batteries

Below is a listing of batteries that could be present in the product:

| Battery Description – Batteries  | Battery Type | Battery Weight (kg) | Rating |
|----------------------------------|--------------|---------------------|--------|
| AA or AAA Remote Control Battery | NA           | N/A                 | N/A    |

## XI. Design for Environment

Dell systems are, when applicable, designed for easy assembly, disassembly, and servicing. For more information on Dell's Environmental product attributes click [here](#).

## XII. Recycling / End-of-Life Service Information

Take back and recycling services are offered for this product in certain countries. If you want to dispose of system components, please visit [How to Recycle | Dell Technologies US](#) and select the relevant country.

<sup>9</sup> Post-consumer recycled materials are derived from used consumer products

<sup>10</sup> Pre-consumer Material<sup>10</sup>: Material or by-products generated during the manufacturing of a product but before the product reaches the end-use consumer

# I. Statement of Compliance

This product has been determined to be compliant with the applicable standards, regulations, and directives for the countries where the product is marketed. The product is affixed with regulatory marking and text as necessary for the country/agency. Dell manufacturers and markets Multimedia Equipment (MME), Information Technology Equipment (ITE), Audio Visual Equipment (A/V), Industrial, Scientific, Medical Equipment (ISM) or combinations of these. Generally, products Electromagnetic Compatibility (EMC) and Product Safety compliance is based on International IEC and CISPR standards and their national equivalent along with national standards for Radio (wireless), Telecommunications (Modem) and Energy. Dell products have been verified to comply with the Restriction of Hazardous Substances (RoHS) Directive 2011/65/EU of the European Parliament and the Council. Dell product does not contain any of the restricted substances in concentrations and applications not permitted by the RoHS Directive.

EMC Emissions Class refers to one of the following use environments:

- EMC Class B product is intended for use in residential/domestic environments but may also be used in nonresidential/non-domestic environments.
- EMC Class A product is intended for use in non-residential/non-domestic environments. Class A product may also be utilized in residential/domestic environments but may cause interference and require the user to take adequate corrective measures.

For Product Safety and EMC compliance, this product has been assigned a unique regulatory model and regulatory type that is imprinted on the product regulatory labeling to provide traceability to the regulatory approvals noted on this datasheet. This datasheet applies to any product that utilizes the assigned regulatory model and type including marketing names other than those listed on this datasheet. Dell products with the CE marking have been verified to comply with Energy Related Products (ErP) Directive 2009/125/EC of the European Parliament and of the Council. [https://www.dell.com/ErP\\_User\\_Information](https://www.dell.com/ErP_User_Information). REACH (Registration, Evaluation, Authorization and Restriction of Chemicals), Regulation (EC) 1907/2006 of the European Parliament and of the Council is the European Union's (EU) chemical substances regulatory framework. Dell complies with the REACH regulation. For information on SVHC (Substances of Very High Concern), see [www.dell.com/REACH](http://www.dell.com/REACH). This products compliance documentation, such as this datasheet and the European Union Declaration of Conformity are available on the product support page, manuals tab <http://www.dell.com/support>. Additional compliance documentation for the product is available upon submitting a request at <https://support.dellproductcompliance.com> Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

# II. Global Environmental Information

| Environmental (Voluntary Marks)                                   |                                 |   |

| US – California                        | CEC / DOE                 |
| European Union                         | Regulation EC No 278/2009 |
| South Korea                            | South Korea MEPS          |

### III. NFPA 99 Conformity

Select Dell systems have been tested and found to comply with the touch current requirements as defined in 10.3.5 of National Fire Protection Association standard NFPA 99:2012. The touch current does not exceed 100  $\mu$ A with ground wire intact (if a ground wire is provided) and 500  $\mu$ A with ground disconnected at 127 V AC, 60 Hz when tested in accordance with 10.3.5 of NFPA 99: 2012. To determine if this product complies with the above requirements, send a request to [Product\\_Compliance@Dell.com](mailto:Product_Compliance@Dell.com). Please include product identifiers such as marketing name, regulatory type and country for which compliance information is needed.

### IV. Power Cords and User Documentation

Dell products are provided with the power cord and user documentation suitable for the intended country of delivery. Products that are relocated to other countries should use nationally certified power cords and plugs to ensure safe operation of the product. Contact Dell to determine if alternate power cords or user documentation in other languages is available for your market.

### V. Trade (Import/Export) Compliance Data

For any questions related to importing & exporting classification of Dell products, please obtain information from the following link: <http://www.dell.com/learn/us/en/uscorp1/import-export> or send email request to [WW\\_Export\\_Compliance@dell.com](mailto:WW_Export_Compliance@dell.com). Please include product identifiers such as marketing name, regulatory model, regulatory type, and country that compliance information is needed in the email request.

### VI. Product Dimensions and Weight

Please refer to product specifications or user guide or manual at Dell website,

[www.dell.com](http://www.dell.com)

## VII. Product Energy Performance Data

### Audio & Client Peripherals

| Service Level  | Energy Consumption (Wattage) | BTU Calculation | Description of Service Level  |
|--|------------------------------|-----------------|---|
| <b>*Maximum</b>  | N/A                          | N/A             | The system is running at its max power consumption  |
| <b>On</b>  | N/A                          | N/A             | The appliance is connected to a power source and is performing one or more of the following modes: produce sound, wake-up signal, or play a tape or disc.   |
| <b>Off</b>   | N/A                          | N/A             | The appliance is connected to a power source, does neither produce sound nor performs any mechanical function (e.g. playing, recording) and cannot be switched into any other mode with the remote control unit, an external or internal signal |
| <b>External Power Supply "No-Load" (if applicable)</b> | N/A                          | N/A             | AC adapter connected to mains with system detached otherwise known as "No-load" condition.  |

## VIII. Product Materials Information

Information on Dell's material use is available [here](#).

Dell's Restricted Material for Use guidance document is available [here](#).

|   |   |
|---|---|
| Mechanical plastic parts <sup>1</sup> are BFR/PVC free  | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA   |
| Marking of plastics parts is in accordance with ISO 11469 (see below)   | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA   |
| Printed circuit boards (without components) >0.5g are BFR PVC free <sup>1</sup>   | <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> NA   |
| Insulation materials of external electrical cables are PVC free   | <input type="checkbox"/> Yes <input type="checkbox"/> No <input checked="" type="checkbox"/> NA   |
| Product is BFR/PVC Free (Accessories & Options may not be BFR/PVC-Free)   | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No   |
| Postconsumer recycled Plastics (ITE-Derived) <sup>1</sup> material content is used in the product<br><br>If yes, indicate the percentage of the postconsumer recycled material per total plastic weight of the product <sup>1</sup> | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> NA<br><br><b>0 % PCR (Post Consumer Recycled) material in total plastic of product</b> |
| Biobased Plastic material <sup>2</sup> content is used in the product.  | <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> NA<br><br><b>0% biobased plastic material in total plastic of product</b>              |

<sup>1</sup> This product contains x% post-consumer recycled plastic and/or closed loop recycled plastics (ITE-derived)\*  
\*(Measured as a percentage of total amount of plastic (by weight) in the product as per guidance in TCO standard as applies to plastic parts.)

<sup>2</sup> Bio-based plastics are fully or partially made from biological resources, rather than fossil raw materials. They are not necessarily compostable or biodegradable. It is important to examine the full life cycle of bio-based plastics, to ensure that they are beneficial to the environment beyond the reduction in use of fossil resources. This includes littering and changes in land use

|   |  |
|---|--|
| If yes, either indicate the percentage of the biobased plastic material per total plastic weight of the product |  |
|---|--|

#### Flame Retardants Used in Motherboard

| Part              | List the Flame Retardants                 |
|-------------------|---|
| PCB <sup>3</sup>  | Halogen-free Organic Phosphates Compounds |
| PCBA <sup>4</sup> | Halogen (BR/CL) Flame retardant           |

#### Flame Retardants Used in Mechanical Plastic Parts

The case material is > HIPS, ABS <

| Resin Material Name | Plastic Part Marking per ISO 11469:2016 | Flame Retardant Marking per ISO 1043-4 (i.e. FR(16), FR(40), etc.) | List the Flame Retardants used on (i.e. BPA, etc) | List applicable R-Phrase(s) or Hazard Statement(s) per EU Directive 67/548/EEG or 1272/2008 |
|---------------------|---|--|---|---|
| HIPS-HB             | >HIPS<                                  | N/A  | N/A   | None  |
| ABS-HB              | No Marking                              | N/A  | N/A   | None  |

#### Additional information:

- Refer to Dell Technologies' [Chemical Use Policy](#) for more information on RoHS and REACH.
- Products MSDS (Material Safety Data Sheets):
  - Batteries: [Battery MSDS Documentation and Declaration](#)
  - Printer Toner and Ink: [MSDS Documentation](#)

## IX. Packaging

Information on Dell's sustainable packaging effort available [here](#). Additional materials restricted in Packaging as per Dell's Material Restricted for Use Standard document can be found at [www.dell.com/restrictedsubstanceslist](http://www.dell.com/restrictedsubstanceslist).

| Packaging Materials                  | Total Weight of each Packaging Material (kg) | % Post Consumer Recycled Material <sup>5</sup> used | % Pre-Consumer Material <sup>6</sup> used |
|--------------------------------------|--|---|---|
| Carton box (Corrugated Fibred Board) | 0.182  | 91  | 0   |
| Paper box sleeve                     | 0.078  | 80  | 0   |
| Plastic Bags - LDPE                  | 0.013  | 0   | 0   |

<sup>3</sup> A PCB is a blank circuit board with no electronic components attached

<sup>4</sup> PCBA is a completed assembly that contains all of the components required for the board to function as needed for the desired application

<sup>5</sup> Post-consumer recycled materials are derived from used consumer products

<sup>6</sup> Pre-consumer Material<sup>6</sup>: Material or by-products generated during the manufacturing of a product but before the product reaches the end-use consumer

## X. Batteries

Below is a listing of batteries that could be present in the product:

| Battery Description – Batteries | Battery Type | Battery Weight (kg) | Rating |
|---------------------------------|--------------|---------------------|--------|
| AAA for Wireless Keyboard       | Alkaline     | 0.011 x 2           | 1.5V   |
| AA for Wireless Mouse           | Alkaline     | 0.023               | 1.5V   |

## XI. Design for Environment

Dell systems are, when applicable, designed for easy assembly, disassembly, and servicing. For more information on Dell's Environmental product attributes click [here](#).

## XII. Recycling / End-of-Life Service Information

Take back and recycling services are offered for this product in certain countries. If you want to dispose of system components, please visit [How to Recycle | Dell Technologies US](#) and select the relevant country.
