

## ND SERIES

## **Water Distillers**

- New design with distilled water storage tank
- Fully automatic operation with microprocessor control system
- Exhaust port for CO<sub>2</sub> gas disposal
- Safety features with warning lights: Water level is high Water is insufficient -Distillation Heater malfunction (ND 12) Distilled tank full Distilled tank half
- Automatic control system that stops the operation of the device when the distilled water tank is full and starts it again when the water level in the tank is halved
- Energy savings by reusing a certain amount of heated water
- Heaters protected against waterless operation
- Long-lasting stainless steel heaters
- Stainless steel boiling pot, storage tank and condensation
- Design that allows both tabletop and wall-mounted use
- Siliphos filter that minimizes calcification of heaters

## **TECHNICAL SPECIFICATIONS**

	ND 4	ND 12
Distilled water capacity lt./hr.	% ° 4	12
Storage tank capacity liters	8	24
Cooling water consumption lt./hr.	40	120
Power consumption	3x1000 W	3x3000 W
Power supply	230 V -50 Hz	400 V - 50 Hz, 3 faz+N+G
Internal Material	Stainless Steel	
External Material	Epoxy polyester powder coated aluminium	
External Dimensions (WxDxH) mm	820x395x650	820x395x710
Packing Dimensions (WxDxH) mm	880x480x810	880x480x860
Net / Packed Weight kg.	40 / 52	45 / 57
