

0.2ML PCR 8-Strips Tube

No. 661306-661307

0.2ml 8-Strip PCR tubes with cap are ideal for low sample volume reactions. The low profile design allows reduced reaction time and evaporation due to less dead air volume. Polypropylene PCR strip Tubes are available in white and clear . DNase and RNase-free and nonpyrogenic.

Material:PP
 Available with clear and white color ,flat/domed lid.
 Vol:8*0.2ml
 Package: 125strips/bag, 1250strips/ctn
