From: Semlex Côte d'Ivoire

To: Whom it may concern

Letter of recommendation

Dear Sir or Madam,

With this letter of recommendation we verify that Semlex Côte d'Ivoire has been co-operating with UAB "Garsu pasaulis" (Lithuania) on the project: *"Renewal of national identity cards for the Ivory Coast. Development of a biometric network identification system (ORBIS System) for the production of biometric identity cards. Supply and delivery of national e-ID cards in accordance with ICAO doc. 9303"* since 2019.

Herewith below are deliverables and scope of UAB "Garsu pasaulis" activities in the above mentioned project:

1. Design, manufacturing and delivery of biometric national polycarbonate eID cards (manufactured and delivered so far 15,1 million cards) in full compliance with ICAO doc. 9303.
2. Personalization system hardware and software (delivered and put in full operation).

The services provided and products delivered per each of the above contract are distinguished to their highest levels of security and quality, and were strictly following the contract provisions and international rules of such nature.

Accordingly, we would highly recommend this company as a reliable long-term partner in fulfilling any of your needs of country ID system development.

Sincerely,
