AYŞET  
Tıbbi Ürünler

About us;

We, as Ayset Tibbi Ürünler San. A. Ş., was founded in 1996 in the city of Adana as a local manufacturer of disposable medical devices.

Launched its initial operations with production of syringes in various sizes in its own state-of-art and ISO 13485 & CE certified plants in accordance with the standards EN ISO 7886-1 ,EN ISO 7864 and EN ISO 8537, our company has expanded its production range to vacuum blood collection tubes, vacuum blood collection needles, insulin pen needles, elastic net bandages as well as many consumables and laboratory products.

Feeling the right proud of being a reputable, reliable and admired brand quality achieved as a result of know-how and experience of more than 20 years, we succeeded to well position our products in both domestic and abroad markets thanks to our dutiful, meticulous and expert staff whose principle is "quality is first in healthcare" from production to marketing.

Thanks to its entrepreneur, innovation focused, dynamic and expert staff who continuously improves themselves with people-oriented sense of responsibility, and with its continuously improved and reinforced quality, Ayset has been aiming to grow up by contributing to its national economy with its increasing capital, high technology machinery, contemporary management mentality.

We invite you to walk with us on the road of improvement.

## STERIL SINGLE USE INSULIN PEN NEEDLES

- Highest quality for safety and comfortable use!
- Advance production technology with 4 camera system
- Triple long bevel needle tip with laser cutting
- Needle tube with thin wall and bigger inner diameter
- Medical grade siliconized needle for painless injection
- Luer lock system with the pen against insulin leakage
- EO sterilization

## STERILE SINGLE USE HYPODERMIC NEEDLES

### Various Sizes Conform With International Standards

STANDARD : EN ISO 7864

Cannula : High Quality Stainless Steel

Transparent Cap: Medical Grade PP

Hub : Medical Grade PP and Colourant

Bevel: Triple Long Bevel or Short Bevel

Wall Thickness : Ultra Thin Wall or Regular Wall 6% Luer Slip

Color Code : ISO 6009

Packing : Blister Packing wiht Medical Film and Paper

Sterilization : EO

## BLOOD COLLECTION TUBES

### Various Sizes Conform With International Standards

Standard : EN 14820

Tube: Medical Grade PET

Stopper : Butyl Rubber

Cap: Medical Grade Polypropylene

Color Code: ISO 6710

Sterilization : Radiation

PRODUCT DESCRIPTION: AYSET evacuated blood collection tubes are PET Plastic Tubes conform with International standards. Tubes are used in clinical laboratories for venous or whole blood tests. Blood collection tubes are single use only.

### Ayset Tubes (Hematology)

## AYSET PEDIATRIC TUBES

Ayset Pediatric Tubes are designed for easy capillary blood collection.

Single Use  
Non Sterile  
Medical Grade PET  
CAP : Medical Grade Polypropylene  
Color code : ISO 6710

### Capillary Blood Collection

- Fingertip on admission, heel or lobe on infants are wiped with 70% alcohol.
- After a drying process, a hamlet is drilled with a lancet.
- The first blood is removed. Later, spouts that come out spontaneously are impregnated into capillary tube
