CERTIFICATES

FSC Certificate

The Forest Stewardship Council (FSC) is an independent, not for profit, non-government organization established to support environmentally appropriate, socially beneficial, and economically viable management of the world's forests. FSC's vision is where the world's forests meet the social, ecological, and economic rights and needs of the present generation without compromising those of future generations.

ISO 50001:2011 Energy Management System

The purpose of this management system is to provide required organizations and processes about energy productivity and energy improvement projects which include production and consumption.

ISO 14001:2015 Environmental Management System

The purpose of this management system is to provide organizations with a framework to protect the environment and respond to changing environmental conditions in balance with socio-economic needs. To achieve the intended outcomes, including enhancing its environmental performance, the organization shall establish, implement, maintain and continually improve an environmental management system.

ISO 9001:2008 Quality Management System

The adoption of a quality management system is a strategic decision for an organization that can help to improve its overall performance and provide a sound basis for sustainable development initiatives. The potential benefits to an organization of implementing a quality management system based on this International Standards are: the ability to consistently provide products and services that meet customer and applicable statutory and regulatory requirements, facilitating opportunities to enhance customer satisfaction, addressing risks and opportunities associated with its context and objectives, the ability to demonstrate conformity to specified quality management system requirements.
