

MANUFACTURER TECHNICAL CONFIRMATION

Date: 29th of July 2026

To:
ICS "Reliable Solutions Distributor" SRL
Str. Alexandru cel Bun 85
MD-2012, Chişinău
Republic of Moldova

Subject: ONVIF Profiles, TLS 1.3 and Genetec Security Center Integration

We hereby confirm that the proposed Pelco Optera Enhanced PTZ camera, model OPTEPT1-30X4MP-IR-EP, supports the following technical capabilities:

1. ONVIF compliance

- The camera is ONVIF® compliant with Profile S, Profile T, Profile G and Profile M.
- The applicable ONVIF profile specifications and related documentation are publicly available on the official ONVIF website.

2. TLS support

- The camera supports TLS 1.2 and TLS 1.3 for secure encrypted communications.

3. Integration with Genetec Security Center

- The proposed camera can be integrated with Genetec Security Center through the supported ONVIF Profile S, Profile T, Profile G and Profile M interfaces and the standard interoperability mechanisms available in the product.
- Pelco confirms its technical support to ICS "Reliable Solutions Distributor" SRL for the implementation, configuration, testing and completion of the integration in accordance with the requirements of procurement procedure ocds-b3wdp1-MD-1784281318155.
- Subject to access to the Beneficiary's Genetec Security Center environment, the required system information and the necessary cooperation of the parties responsible for the existing Genetec infrastructure, Pelco will support ICS "Reliable Solutions Distributor" SRL in completing the integration within a maximum of 30 calendar days from the Contracting Authority's request.

4. Technical support

- Pelco will provide the necessary technical and informational support during the integration and functional testing process, including assistance in resolving compatibility or configuration issues related to the proposed equipment.

This confirmation is issued for use by ICS "Reliable Solutions Distributor" SRL in the above-mentioned procurement procedure.

Sincerely,
Plamen Velikov
