Medical Electric Orthopedic Dual Function Canulate Drill

- I: Portable and lightweight
- li: Reliable and performance
- lii: Autoclavable

Medical Autoclavable Orthopedic Canulate drill

1:Technical Data:

I: Hand Piece

Working Voltage: 14.4V

Output Power: More than 20W

Unit Rise In Temperaturer: More than 25 centi-degree

li:Charger

Input Voltage: AC 220V, 50Hz

Output Power: 14.4V, 900mA

Input Power: 30VA

lii: Battery

Voltage: 14.4V

Charging Time: About Three Hours

2: Standard Configuration

I: One hand piece

li: One battery

lii: One Charger

Iv: One drill chuck

V: One Sterilizing channel

Vi: One Aluminium box

3: Technical Merits:

I: Axial run-out of concentricity is within 0.05mm

li: Rotating speed: 600 rpm

lii: Rotated torque: 3.5N/m

Iv: Supporting the interface of the brand products

V: Semi-luser surface treatment technology gives the operator more comfortable operation

Vi: Multipurpose interface is easier to use in clinic

Vii: 4.0mm hollow for all brand needles to pass through

Viii: Ni-MH battery without memory environment friendly

4: Payment Terms

I: Port: Shanghai, China

li: MOQ: 1 Set

lii: Payment Terms: T/T in advance or western union

Iv: Delivery Time: Immediately after payment

5: Remarks:

Our products are chargeable, if your electricity source is 110V-120V/60Hz, Please inform us, we can offer you a transformer.

Please do not hesitate to contact me if you have any further question.

Advanced production and professional team is the guarantee of quality,more in-depth information you should read from **About** us.For more information on purchasing and service, please find
