Recommendation Letter

We have chosen S&T Mold S.R.L. as an HPE Platinum Partner and Service Center for the delivery of new hyperconverged infrastructure for our financial system.

S&T Mold has successfully delivered and implemented solution based on HPE SimpliVity that provides effective management of virtualized workloads. The company has also implemented a backup solution based on Nakivo.

We recommend S&T Mold as a company that has capabilities and resources to successfully design, implement and support complex enterprise infrastructure projects.
