12. Performance guarantee

No performance guarantee is required.

13. Information meeting and/or site visit

No information meeting is planned.

14. Tender validity

Tenders must remain valid for a period of 60 days after the deadline for submission of tenders. In exceptional circumstances, the Contracting Authority may, before the validity period expires, request that tenderers extend the validity of tenders for a specific period (see para 8.2 of the instructions to tenderers).

15. Period of implementation of tasks

30 days from the date of the contract signature.

SELECTION AND AWARD CRITERIA

16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

- 1) Economic and financial capacity of tenderer (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period which will be taken into account will be the last three years for which accounts have been closed.

The selection criteria for each tenderer are as follows:

- the average annual turnover of the tenderer must exceed the annualised maximum budget of the contract (minimum annual turnover requested may not exceed 2 times the estimated annual contract value, except in duly justified cases motivated in the tender dossier); and
 - Current ratio (current assets/current liabilities) in the last year for which accounts have been closed must be at least 1. In case of a consortium, this criterion must be fulfilled by each member.
- 2) Professional capacity of tenderer (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 3 years from submission deadline.
- has a professional certificate appropriate to this contract, such as ISO9001 or equivalent;
 - has authorized personnel and space for repairs of supplied equipment.
- 3) Technical capacity of tenderer (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period which will be taken into account will be the last 3 years from submission deadline.
- the tenderer has delivered supplies under at least 3 contracts with a budget of at least 10 000 EUR in ITC field which were implemented during the following period: 3 years before the submission deadline.

This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links which it has with them. Some examples of when it may not be considered appropriate by the Contracting Authority are when the tenderer relies in majority on the capacities of other entities or when they rely on key criteria. If the tenderer relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.
