

Our quality target; to offer a high standard products to our all customers and stakeholders.

To provide employment by opening fields of business areas in the medical sector. To assure qualified and standard services globally.

Merkez Mh. Gungoren Cd. No 32/A 34200 Bagcilar Istanbul **TURKEY**
+90 212 461 84 31 / export@karadenizmed.com / www.karadenizmed.com

Karadeniz Medikal started its first activity in the medical sector in 1994. Our company, whose foundations were laid by our founder Mr. Metin Azak in Istanbul Gungoren; started to show itself by making a rapid start in the medical sector, especially with product designs in the first years of its activities.

In the following years, our organization continued to develop its product range with its business partners and experience, which played an important role in its activities. Additionally, It continued to increase this momentum in the following years with the priority of quality products and unconditional customer satisfaction in the medical sector, where it has been operating in a short time with alternative product groups and services offered according to needs. Karadeniz Medikal has managed to become one of the leading brands in Turkey, especially in the "Wheelchair" sector in less than 10 years. In the following years, it has carried the experience gained in this success process beyond the borders of the country to the Asian, Middle Eastern, African and European markets.

The fact that the architects of the adventure, which started with 5 people, insisting of the principle of "Perfect Service" under any circumstances, constituted one of the cornerstones of our success. The motto of "Perfect Service" has led us to catch the "Producing Perfect" perspective. In this direction; it has created an infrastructure for us to create a staff who can compete, is open to innovations and is aware of the concept of innovation, is sensitive to the environment and has a professional perspective. Our organization's perspective of "Right manpower for the right job" in employment indirectly formed the basis of corporate belonging and guided the spontaneous formation of the concept of competent personnel.

We have accelerated and strengthened all our processes by blending our experience in production, import and export processes, which we have gained in Turkey and abroad for many years, with our 4 brands in our new modern production facility, which we established on a 2.000m2 closed area in Kocaeli Dilovası region in 2020. We are proud to be known as the only Turkish brand that produces certified products at international standards in Turkey's own modern facilities.

Today, Karadeniz Medikal is trusted, respected and known in its field among the medical companies in Turkey and aims at this awareness abroad as well. It continues on its way with confident steps by adopting the principle of transferring the learning and development process that has been going on since 1994 to the next generation without compromising its prestige.

Vision

To be a leading and permanent company among innovative, domestic and foreign medical companies that have production standards and awareness in the global market, where our users who prefer our daily life aid products feel safe in all processes and product expectations are met.

Mission

To increase the employment areas where our member of workforce work happily and safely in the field of the production of medical products, which we also serve, by offering quality products to our local and international users and stakeholders.

CHAIRMAN OF THE BOARD

Kemal AZAK

Maximum Safe Slope	: 12°
Maximum Curb Climb	: 10 cm
Backrest Recline	: 45°
Body Type	: Fixed
Product Weight	: 104 kg
Maximum Loading Capacity	: 180 kg

Barcode No: 8698785011063

SCUBA S301

Standing Power Wheelchair

Maximum Speed	: 10 km/h
Maximum Range	: 22 km
Motors	: 2x DC 24V 340W
Controller	: Dynamic 60A
Batteries	: 2x55 AH Gel
Maximum Safe Slope	: 12°
Product Weight	: 143 kg
Maximum Loading Capacity	: 140 kg

- Automatically standing&elevating frame structure offers highest accessibility
- Easy transferable to bed,car etc. with flip away and height adjustable armrests.
- Positioning the backrest&legrests offers extra comfort to the users.
- Back suspension system protects the user with absorbing the shock hits.
- 14"(3.00-8) Pneumatic drive wheels help the user drive the chair on rough terrains, lands and high sidewalked cities easily.
- 10"(3.00-4) Pneumatic front wheels provides easy driving on rough terrains and street drains.
- Available manual usage after disengage the motor lever once needed.
- The anti-tipper wheel protects the user if fall down while using the chair on the sloping areas.
- Back&Seat cushion provides comfort in a long term usages.
- Lighting system offers more visibility.

SCUBA S550

Atto Mini Scooter

The industry's most stylish foldable scooter is also the smartest and safest solution for anyone with limited mobility

ATTO empowers you to move and travel independently while giving you the confidence that comes with a great-looking essential vehicle

Unfolds in seconds

Split to 2 compact parts

Fits car trunk

Flight approved

SCUBA S550

Atto Mini Scooter

Maximum Speed	: 6.4 km/h
Max. Range Distance	: 20 km
Turning Radius	: 1.35 m (53").
Motors	: DC Motor
Batteries	: 48V Lithium
Charger	: 110-240V AC
Brake	: Electromagnetic
Maximum Safe Slope	: 6°
Body Type	: Folding

Barcode No: 8698785010776

Barcode No: 8698785010813

SCUBA S350

Deiser Midi Scooter

- Extraordinary strengthened frame structure offers confidential usage.
- Back warning lamp and lighting system offers more visibility
- Foldable backrest save more space while transported
- Back suspension system protects the user with absorbing the shock hits
- 410/350-5" Pneumatic drive&front wheels help the user drive the chair on rough terrains, lands and high sidewalked cities easily
- Available manual usage after disengage the motor lever once needed
- Ergonomic captain seat provides comfort in a long term usages

Maximum Speed	: 12 KM / H
Maximum Range	: 40 km
Turning Radius	: 82 cm
Motors	: 1x DC 24V 600W (MTM)
Controller	: PG S-Drive 120A
Batteries	: 2x40 AH Gel
Charger	: 5 Amp Off-Board
Brake	: Electromagnetic
Maximum Safe Slope	: 12°
Maximum Curb Climb	: 10 cm
Backrest Recline	: 45°
Body Type	: Fixed
