

ANNEX 9

Environmental Policy

	EMS	DOC. NO.: JMR/EMS-EPO/ 01		Date:17.10.2025
	ENVIRONMENTAL POLICY	Version No. 0.0	Issue No: 01	Page 2 of 1

The Management of JMR INFOTECH is committed to protect the Environment by carrying out all its activities in an environmentally responsible manner.

The Management shall demonstrate the commitment,

- By recycling waste to the extent possible.
- By improving the environment soundness of our processes to use energy and natural resources as efficiently as possible.
- Minimize waste generation, enhance recovery and recycling of material and develop eco-friendly waste disposal practices
- Implement effective pollution prevention and waste minimization programs to reduce, reuse, and recycle materials.
- Aiming to work with suppliers and contractors to improve their environmental standards
- By minimizing the risk of environmental accidents through various preventive measures.
- By constituting a team committed and trained employees to meet any environmental emergency including fire.
- Comply with all applicable environmental, laws, regulations, and other requirements.
- By extending communication to the External Organizations and Personnel working for and on behalf of the Company.

The Management shall continually improve the performance of the environment by training and reviews
