How does SC PACS support your everyday job?

OPTIMIZED IMAGE STORAGE & WORKFLOW INTEGRATION

Efficiently store and access diagnostic images anywhere, by integrating it into your systems to optimize budgets and workflows.

USER-FRIENDLY & COST-EFFECTIVE SOFTWARE

Quick to integrate and easy to use, our intuitive interface delivers efficient patient care for improved diagnostic precision.

ENHANCED DIAGNOSTICS WITH AI & COLLABORATION

Empower your healthcare team with AI-driven analytics for precise diagnostics and better collaboration among specialists.

SC PACS SUITE

SC PACS SERVER

Integrates with existing systems, securely stores data, and provides controlled, easy DICOM-compliant access to patient information.

SC PACS VIEWER

Instant-launch DICOM access, easily integrates with your routine, providing precise image viewing for improved patient care.

SC PACS ZFP

Transform your mobile device into a secure, portable PACS portal, providing instant access to medical images, reports, and patient data.

SC PACS MOBILE

The SC PACS ZFP web based PACS enables secure, quick access to medical imaging, supporting remote collaboration and diagnostics.

SC PACS STATISTICS

Optimize your workflow with detailed reports, track usage, and analyze patient data efficiently. All exportable in PDF or CSV formats.

SC PACS SOLUTIONS

CLOUD-BASED PACS

Cloud-based PACS offers secure, scalable storage, and reduces hardware maintenance and installation costs.

3D MYRIAN SOLUTION

Myrian 3D equips radiologists and healthcare professionals with 2D/3D modules to optimize precision diagnostics.

ADVANCED ANALYTICS & AI

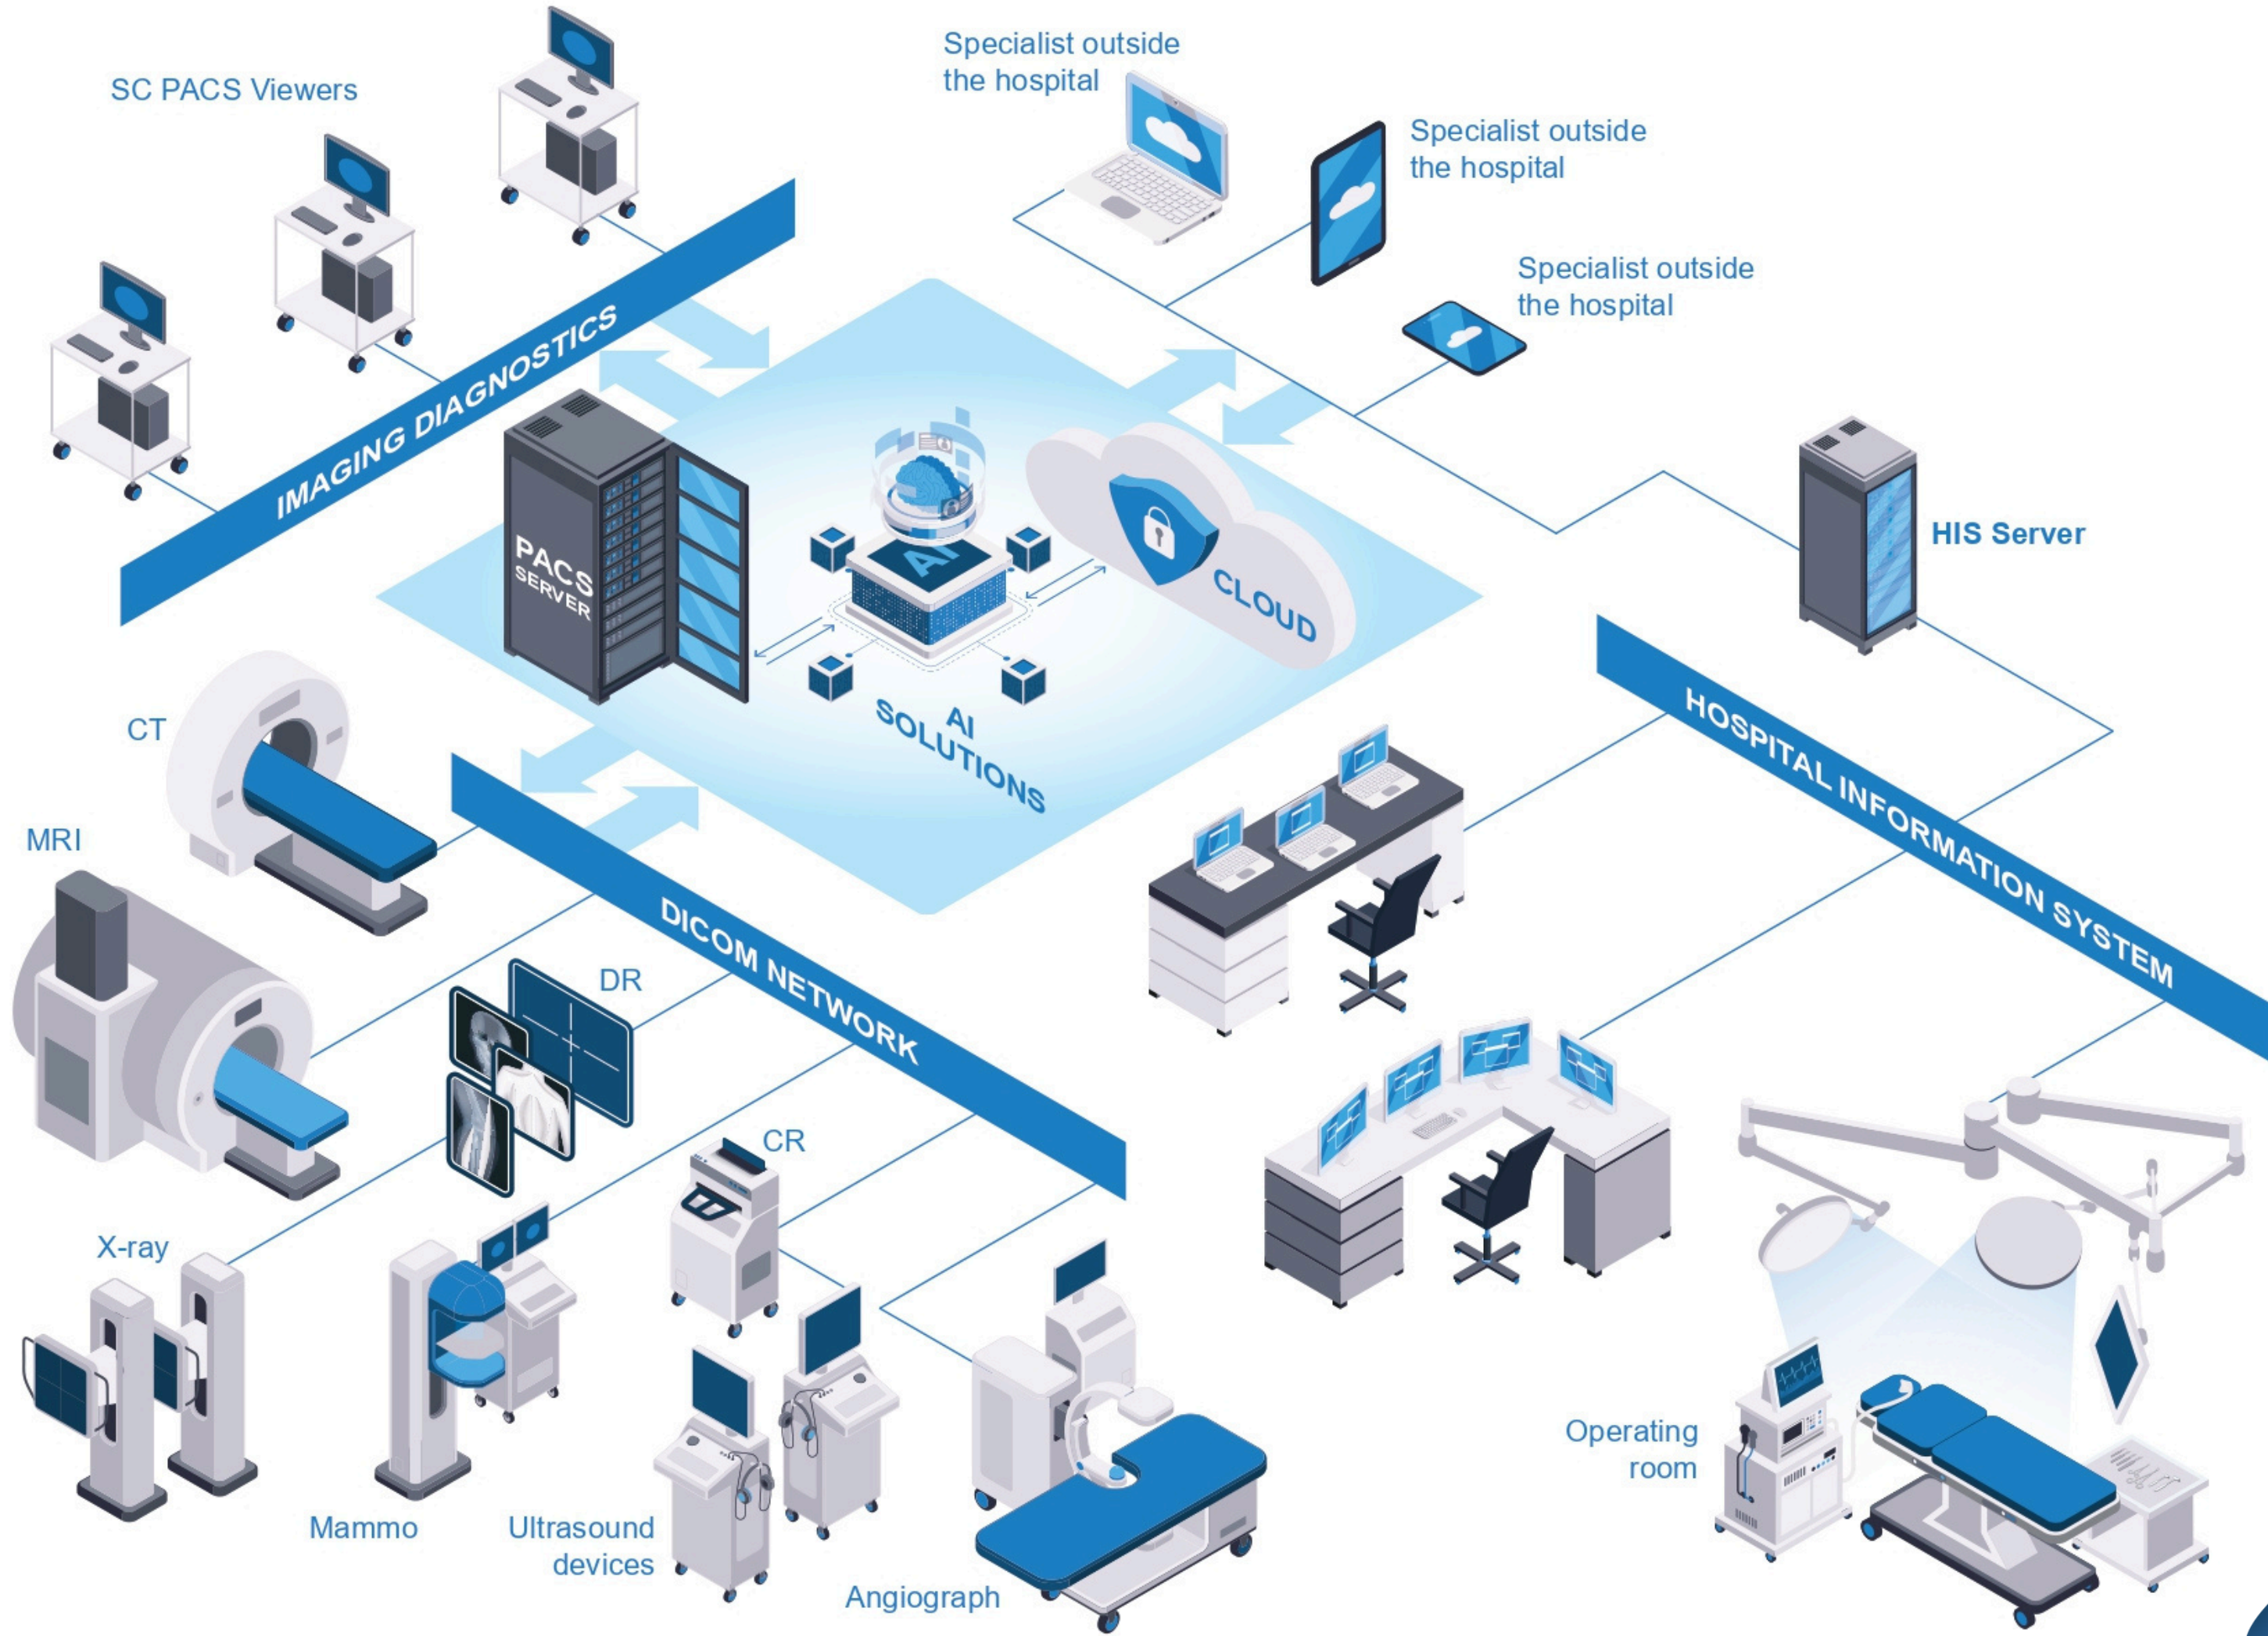

AI-enhanced analytics offer radiologists precise anomaly detection, reduced workload and faster diagnostics.

SC PACS INTEGRATION

Integration Services provide installation, digital archive setup, data management and custom solutions.

CONSULTING AND TRAINING

PACS consulting services offer workflow analysis, personalized training for better efficiency and proficiency.

OUR STORY

2000

SC PACS started as a division of “Software Company” EOOD, a Bulgarian firm specializing in software development since 1996 for business and medical applications.

2007

SC PACS won a government project for technological renovation and repair of the Specialized Hospital for Active Treatment of Oncology in Sofia.

2013

Signed a contract with the Ministry of Health to supply software to Bulgarian hospitals, funded by the Regional Development Operational Program for more than 5 years.

2017

Became an official Silver Partner of Microsoft.

2023

Established AI partnerships

2024

Trusted by over 100 hospitals and counting.
