

Calibration Certificate

Kind of Equipment

SMARTOTDR 100B 1310/1550 &
FILTERED 1625NM - APC

Type/Model no.

E136FB

Serial number

40056

Manufacturer

Viavi Solutions

Calibration Report no. and date

1019BO40056

Confirmation Interval

One Year

Ambient temperature
/relative humidity

25°C +/-5
50%+/-30

This calibration certificate confirms that all measurements lie within the limit values stated in the product-specific calibration procedure.

The calibration results are traceable to National Standards and NIST standards which are consistent with the recommendations of the General Conference on Weights and Measures (CGPM), or to standards derived from natural constants, or to standards relying on ratio measurements with self-calibrating technique for their calibration. If a National Standard is not available, the result is traceable to the Reference Standard of Viavi Solutions France S.A.S.

The calibration has been carried out within a certified quality system according to ISO 9001.

The stated confirmation interval shall be regarded as a recommendation. The real definition of the confirmation interval should be made by the user. The type of application and the environmental conditions should be taken into account.
