Characteristics

Overall dimensions	Height: 130cm to 170cm
Screen dimensions	Height: 120cm Width: 60cm
Screen power	220V (adapter included)
Materials	Stainless steel Acrylic composite
Temperature ranges	In storage: from 0°C to 40°C In operation: from 0°C to 30°C
Humidity ranges	In storage: 10% < RH < 90%, non-condensed In operation: 20% < RH < 80%, non-condensed

Product Description

One of the challenges in the enrollment of face biometrics is capturing a perfect frontal photo with a uniform background that does not require additional manual post-processing.

To achieve this, our state of the art enrollment touchpoints are combined with the Seamless Illuminated Backdrop. This is a smart frame of illuminated white LEDs that serve as a backdrop for the face capture, the result is a fully ICAO-compliant capture, with blank background and a flawless face image crop, which is impossible to achieve with traditional backdrops.
