Description	Product Details	Delivery cost	Warranty	F.A.Q.
-------------	-----------------	---------------	----------	--------

The ECHO PRO 1 veterinary table is a model of veterinary table with electric height adjustment. The base has four anti-slip feet with the possibility of adjustment. The table has a steel construction, coated with powder paint resistant to splashes and scratches.

The table top is made of high-quality HPL laminate, The table has an adjustment range of 25-104 cm, making it easy to perform diagnostics on it. The table comes with a removable mattress as standard.

Features of the table:

- linear actuator with permissible load of 150 kg
- steel base, covered with powder coated paint resistant to chipping and scratching
- 4 adjustable rubber feet
- top made of HPL Laminate
- 6 tie-down hooks (3 on each side)

Features of the top made of HPL laminate:

- Very high strength and resistance to mechanical damage
- It has a significant chemical and biological resistance
- Easy to keep clean and sterile
- Flame retardant (Class Cs1, d0)
- Waterproof, full resistance to moisture and water vapor

ie Good price-performance ratio. Complete table with
 h. accessories, incredibly manoeuvrable castors, easy to
 move. Convenient height adjustment, solid workmanship.
 The additional mat is a great idea!

Have a Nose Foundation - We Help Animals

Since the beginning of our activity, hundreds of animals have passed through our asylum, of which over 300 have already been sent to new homes. We strive to give shelter to all animals that need our help. At the moment, dogs, cats, goats, sheep, ponies, nutria, rabbits, bull, cows and chickens stay in our asylum under our care.
