

ADASPOR® PLUS

ISAZONE® & Peracetic Acid Cold sterilization & high-level disinfection

ADASPOR® Plus products family:

Art. Code	Description	Activity thru	Article Number
550009	ADASPOR® PLUS M	14 days	1287789
550002	ADASPOR® PLUS Concentrate	12 days	1287775
550034	ADASPOR® PLUS Pronto 5L	12 days	1293572
550033	ADASPOR® PLUS Pronto 1L	12 days	1293561
550042	ADASPOR® PLUS Pentadie	5 days	1253700
550035	ADASPOR® PLUS Monodie	1 day	1293919
550036	ADASPOR® Plus Single Shot	For usage in selected AER's MEDIVATORS®	1293936

CND D050102

Art Code	Description
520017	ADASPOR® Plus Test Strip Strips for determination of efficacy and MCR (minimum recommended concentration of peracetic acid in ADASPOR® Plus)

ADASPOR® PLUS

ISAZONE® & Peracetic Acid Solution for cold chemical sterilization and High Level Disinfection

CANTEL MEDICAL

ADASPOR[®] PLUS

Sterilization solution formulated with Peracetic Acid & Diazaadamantane (ISAZONE[®]) with conformity to UNI EN ISO 14937 par. 5.3.1 in 10 minutes, tested under dirty and clean conditions, as required by UNI EN 14885.

ISAZONE[®]

PERACETIC ACID

ISAZONE[®] & PERACETIC ACID:

The best active synergy for the highest level of safety & security

- Effecting controlled *slow release* of active oxygen
- Adjustment/coordination of Peracetic Acid (PAA) action & reaction
- Neutral pH (6-7) and low PAA concentration in compare to generic PAA chemistries
- Efficient sterilization at ambient temperature and high compatibility

Rapid action

- Cold chemical sterilization cfu/ml = 0 in 10 min
- Sporicidal & high-level disinfection in 5 min

Efficiency

- Synergetic action of ISAZONE[®] and Peracetic Acid eliminates ANY microbial form of life (cfu/ml=0), in accordance to sterilization definition (UNI EN ISO 14937- par. 5.3.1) for cold chemical sterilization
- Highest microbiological activity and widest action spectrum (sporicidal, tubercolicidal, virucidal, micobactericidal, battericidal)

Assurance for effective reprocessing for the prevention of infections

Maximal level of security

- Clinically and toxicologically tested
- Microbiological activity tests are performed in clean and dirty conditions to ensure highest safety standards for patients and operators

Compatibility with thermos liable medical devices

- ADASPOR[®] Plus guarantees absolute compatibility with thermoliable medical devices and flexible endoscopes from different manufacturers, confirmed with millions of sterilization and high level disinfection cycles performed with ADASPOR[®] Plus worldwide
- Reduction of service and maintenance costs for reusable medical devices

Maximum duration

- With slow controlled release due to ISAZONE[®]
- ADASPOR[®] Plus chemistries last for 12 days after 1st usage

ADASPOR[®] PLUS TEST STRIPS

- Activity & efficacy controlled and confirmed with ADASPOR[®] Plus Test Strip
- Strips are designed for determination of MRC (Minimal recommended Concentration) 0,05% of Peracetic Acid in association with ISAZONE[®], ensure sterilization action of ADASPOR[®] Plus.
