

CERTIFICATE

We hereby confirm the Smart Print Control system was installed
on January 19, 2011 on the Heidelberg SM 74-4,
No. DS 000188, operated by the Printing House of Nova Imprim S.R.L.,
1 Florilor, Chisinau, Republic of Moldova, MD-2068.

The Smart Print Control system is integrated in the printing machine
and is designed to measure the light intensity and to subsequently perform
automatic adjustment to the printing process.

This system guarantees the uniformity of color for the entire edition.
