

PRODUCT BULLETIN

MAKS 2288

CORROSION AND LIME SCALE INHIBITOR

GENERAL DESCRIPTION

MAKS 2288 is a cooling water treatment containing synergized polymer type and organic stabilizers with organic and inorganic corrosion inhibitors in liquid form.

PRINCIPAL USES

MAKS 2288 is a powerful anti-scale product preventing mineral scales and resisting to time, temperature and pH fluctuation in re-circulating cooling water systems.

MAKS 2288 acts as a corrosion inhibitor, forming a protective film on metal surfaces of carbon steel to prevent pitting and general attacks.

PRODUCT BENEFITS

- Prevents corrosion and scale formation and fouling deposition in open re-circulating cooling water systems
- Provides effective protection on mild steel
- Prevents scale formation and reduces need for acid under alkaline pH conditions
- Disperses suspended solids and maintains clean transfer surfaces

DOSAGE

The specific dosage of **MAKS 2288** varies depending on the operating characteristics of your system and the water chemistry.

Your **BİMAKS** representative will recommend the optimum dosage necessary to ensure maximum program performance according to your specific system parameters.

FEEDING

MAKS 2288 should be fed neat to a location in the system where it will be uniformly mixed and thoroughly distributed. The product should be fed preferably to tower sump.

MATERIALS: Storage and application equipments (pumps, lines) should be made of PVC, PP, PE, Plexiglas, Teflon, Hypalon, Penton or Viton. Do not use carbon, steel or stainless steel in contact with the neat product.

HANDLING-STORAGE-SHIPPING

As a standard precaution with all chemicals we recommend the use of personal protective equipments such as goggles and rubber gloves when handling. Consult the Material Safety Data Sheet as the only official source of Environmental and Safety information.

MAKS 2288 can be stored for at least 24 months from date of shipping if kept in its original, unopened container and under normal warehouse conditions. Protect from freezing and from exposure to high temperature.

MAKS 2288 is available in non-returnable containers of different sizes.
