

## Rooftop condenser units with high performance

Perfect adaptation for minibuses and midibuses

This line of rooftop condenser units is perfectly geared to cooling mini- and midibuses. They are equipped with durable, high-efficient and high reliability evaporators. Easy and quick installation are characteristic for these systems as they can be easily integrated in your vehicle because of their modular frame.

A variety of accessories and vehicle-specific installation kits are available. It is furthermore possible to customize the units by painting them in the vehicle color.

- High cooling performance
- Aerodynamic design for optimal passenger comfort
- High-quality and reliable components from proven series production processes
- Compact design facilitates installation in diverse vehicle categories
- Easy installation and little maintenance required

## Integrated air-conditioning systems up to 14.0 kW cooling capacity

An ideal climate for minibuses with up to 17+1 seats

These integrated air-conditioning systems create pleasant conditions for the driver and passengers in minibuses with up to 17+1 seats. With installation options under the dashboard, roof or in the roof liner, these units offer a high degree of flexibility. These units are very reliable and have a long service life.

The wide range of accessories includes condensers, which can be mounted on the roof or under the chassis, as well as control units, air ducts and customer-specific installation sets.

- Air-conditioning systems with a cooling capacity up to 14.0 kW
- Optimum integration into the vehicle design thanks to versatile installation options
- High efficiency in relation to the dimensions
- High-quality and reliable components from proven series production processes
- Very low maintenance

## Technical Specifications

Air-conditioning unit	Newport TR
Cooling capacity (kW)	14.0
Refrigerant	R134a
Nominal voltage (V)	12 / 24
Max. power consumption (A) at 12 V	62.0
Max. air flow (m <sup>3</sup> /h AT 0 Pa)	2,260
Dimensions L x W x H (mm)	385 x 845 x 180
Weight (kg)	14.5
