

Ready to use, up for the challenge

Vitreoretinal Instruments from MedOne

Easy 360° activation for ideal tip positioning

Ergonomic handle grip diameter designed for optimal comfort and accuracy

Short-travel squeeze mechanism gives just the right amount of tactile feedback while increasing stability

Color coded handle for easy gauge identification

Tip styles to suit a wide variety of cases

ILM Forceps

- 3320 ILM Forceps 23g
- 3321 ILM Forceps 25g

ILM Forceps have thin jaws for excellent visibility. Platform is ideal for peeling ILM without shredding or tearing of the membrane.

Asymmetric Forceps

- 3326 Asymmetric Forceps 23g
- 3327 Asymmetric Forceps 25g

Asymmetric Forceps have an angled platform for gripping along the surface of the retina. Slightly larger platform for more secure grip. Blade design allows excellent visibility.

SuperGrip Forceps

- 3323 SuperGrip Forceps 23g
- 3324 SuperGrip Forceps 25g

SuperGrip Forceps have pointed jaws for precise grasping with a large platform for high grip strength. Good for thin membranes and excellent for heavy membranes.
