To whom it may concern,

ICS Soft Tehnica LTD

I confirm that I have dealt with ICS Soft Tehnica LTD since 2011, during which time they have provided my business with excellent support in the areas of website engineering.

In 2013 we implemented MEDSON – “Database of families with thyroid cancer pathology”, an informational system that builds patient genealogy and graphical tree implementation, the platform is optimized for big data and advanced searching possibilities. Their work has been a major factor in our success, helping to become one of the most interesting projects for medicine scientific conference at Academy of Sciences of Moldova in 2013.

I can confidently recommend ICS Soft Tehnica LTD as a solid and reliable supplier, and experts in their field.

Yours faithfully ,

Elena Zamsa
