

From:

Mr. Kristofer Lundqvist
Head of PMO
Scrive AB
Stockholm, Sweden

To Whom It May Concern,

I am writing to wholeheartedly recommend Cryptomathic for their exceptional work in the field of digital security, particularly concerning their recent involvement in our TSP/QES project, applying qualified electronic signatures to digital documents.

As a Head of PMO at Scrive AB, I have had the pleasure of collaborating with Cryptomathic on this most strategic and crucial project, which aimed to integrate a remote QECD and QESs. Throughout the project, Cryptomathic demonstrated not only deep technical expertise but also a profound commitment to excellence and professionalism.

The scope of the project included several complex and critical tasks:

- **Blueprint:** Cryptomathic skillfully developed a comprehensive architecture blueprint for the solution, showcasing their strategic planning and technical understanding.
- **Implementation Support:** Their team provided invaluable support in drafting an implementation concept, ensuring compliance with the TSP Certification Practice Statement. This highlighted their attention to detail and regulatory knowledge.
- **Managed Service:** Successfully implementing the connection to a remote signature, managed service, was a testament to their practical capabilities in operationalising digital security solutions.

The leadership and technical expertise of Jan Kjærsgaard, Francis Richards, and Stefan Hebsgard were particularly noteworthy. Their knowledge of digital identities and signatures played a critical role in the successful delivery of the project. They consistently displayed a high level of dedication, problem-solving skills, and innovative thinking.

The professionalism and seriousness with which Cryptomathic approached this project set a high standard. Their work not only met our expectations but also provided significant value to our operations. We are confident that their expertise and commitment to quality would be an asset to any project in the realm of digital security and electronic signatures.

Please feel free to contact me for further information or clarification regarding Cryptomathic's contributions to our project.

Sincerely,

/Kristofer
