

AGS 102L

LED Surgical Headlight

Lighter

Weighing in at only 185g, our surgical headlight is incredibly lightweight and won't cause neck strain even for hours-long wearing.

Brighter

With a high-quality LED light source, our surgical headlight delivers exceptional brightness and color accuracy, allowing you to clearly visualize even the tiniest details of the surgical field.

Comfortable fit

The headlight could fit perfectly in any size of head thanks to its flexible design. Lather pad up in the front will make sure you have a comfortable wearing for several hours.

High-capacity battery

Our surgical headlight is also designed with a long-lasting battery that lasts for around 5 hours.

The battery is easily rechargeable and can be quickly swapped out for a fresh one. Option for extra battery is available.
