● Dual Functional Canulate drill

Product Name	Model No.	Port	Picture
Dual Function Canulate drill	RJ0210	FOB GUANGZHOU	

Technical Data:

Main unit: working voltage 14.4V
Output power $\geq 20W$
Unit rise in temperature $\leq 25^{\circ}C$

Charger: input voltage 220V/50HZ
Output voltage 14.4V,700mA
Input power 30VA

Battery: voltage 14.4V
Charging time about 3 hours

Standard configuration:

1Hand piece
1Battery
1Charger
1Drill chuck
1Sterilizing channel
1Aluminium box

Technical Merits

- operation
- 1: Axial run-out of concentricity is within 0.05mm
 - 2: Rotating speed : 600 rpm
 - 3: Rated torque 3.3N/m
 - 4: Supporting the interface of the brand products
 - 5: Semi-laser surface treatment technology gives the operator more comfortable operation
 - 6: Multipurpose interface is easier to use in clinic
 - 7: 4.0mm hollow for all brand needles to pass through
 - 8: NI-MH battery without memory environment
 - 9: Autoclavable

Details pictures:

Handpiece

Battery

Drill chuck key

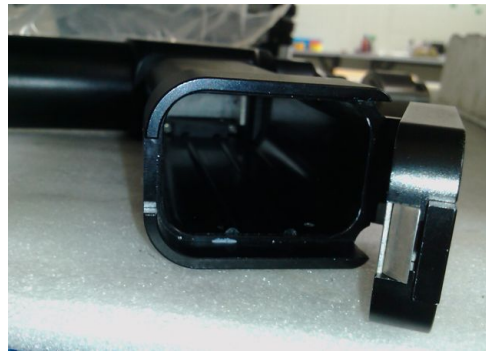

Jacobs drill chuck

Sterilize Channel

New type cap

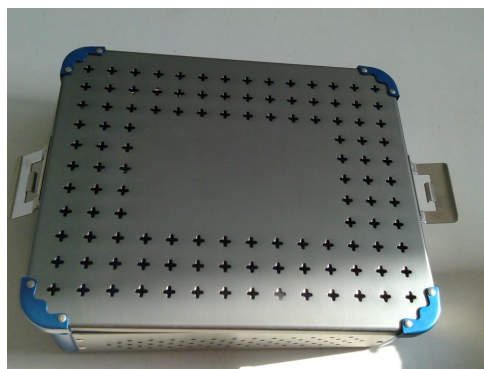

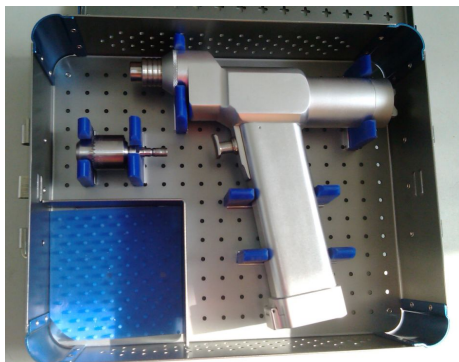

Aluminum case packing

Recommendation:

Autoclavable box specially for cannulated drill

Can attach accessories as below:

1. Flexible reamer

2. Twist drill bit

3. flexible drill bit

4. Acetabulum reamer & shaft
