

Biliary Stone Extraction Balloon Catheter

Used for endoscopic extraction of biliary stones

Triple lumen feature provides wire guided access to facilitate stone extraction from desired location during procedure

Diameter of inflated Balloon 16mm
 Balloon max. Air Inflation 4.0cc
 Balloon max. Fluid Injection 3.0ml
 Recommended Guidewire 0.035"

Art. No.	Catheter Ø (Fr/CH)	Functional Catheter Length (cm)	Working Length (cm)	Syringe (cc)	Guidewire
S-SEBC-7	7	200	200	5	0.035"

Biliary Nitinol Stent Self Expandable

Used for stenosis or obstructed biliary tract caused by benign or malignant changes

With Introducer System
 Radiotherapy compatible
 Uncovered stent
 Expanded Stent Diameter – 10mm
 Compatible with instrument channel size 3.2mm

Art. No.	Stent Length (mm)	Stent Ø (mm)	Guidewire
