

# ► Commvault Complete™ Backup and Recovery

## LICENSE THE WAY YOU WANT

The primary product in Commvault's portfolio is Commvault Complete™ Backup & Recovery. This product line consists of all the software required to conduct backup and recovery activities, with additional features included for archive, operational reporting, and hardware snapshot management, commonly known as Commvault IntelliSnap® technology.

COMPLETE BACKUP & RECOVERY PROGRAM	
Capacity-Based License	
<i>Covers Virtual, Cloud &amp; Physical Environments</i>	
CV-BR-FT	Licensed Per Front End TB (FET)
Infrastructure-Based Licenses	
<i>Covers Virtual &amp; Cloud Environments</i>	
CV-BRVM10	Licensed Per 10 VM
CV-BR-SK	Licensed Per Socket*
<i>Covers Physical Environments</i>	
CV-BR-OI	Licensed Per Operating Instance
User-Based Licenses	
<i>Covers Mailbox Protection &amp; Cloud Applications</i>	
CV-BR-MB	Licensed Per User
<i>Covers Endpoint Devices (Desktops/Laptops)</i>	
CV-BR-EP	Licensed Per User
*Cloud environments cannot be licensed per-socket	

## FREQUENTLY ASKED QUESTIONS

**Can I mix TB-based licensing with socket/VM/instance (Infrastructure-based) licensing in the same CommCell®?**

Customers may purchase by TB-based OR by Infrastructure-based (sockets/instances). Mixing these two models is not possible within a single CommCell, but we have allowed for you to select the licensing model that works best for you. Note that endpoint users and mailbox users may be purchased separately or their licensing can be combined with any other backup and recovery licensing models (i.e., you can purchase endpoint or mailbox licensing without purchasing by capacity or by infrastructure.)

**Are mailbox and endpoint counted per user or per mailbox/device?**

Commvault Complete™ Backup & Recovery for Endpoint and Mailbox Users are per-user licenses. Resource mailboxes and secondary desktops/laptops owned by the same individual are not counted against license totals. Note that endpoint devices that are not assigned an endpoint user license will be counted against TB-based or Infrastructure-based licensing.

**I have an existing CommCell with older Commvault licensing? What do I do?**

All CommCell® groups are eligible to purchase the new Commvault Complete™ Backup & Recovery SKUs. Customers that are client-centric (agents & options, solution sets) will map to VM/instance-based options, while capacity-based licensing customers will continue to purchase TB-based licensing. Please refer to the Licensing Transition Guide for additional details.

**From a licensing perspective, does it matter how many copies of my data I keep?**

All Commvault Complete™ Backup & Recovery licenses provide the ability to store as many retention copies as you need.
