BOB 00

Stretcher support

Stretcher support intended for installation on ambulances.

Specific features

Characterized by low weight and essential structure, allows an easy installation
 The structure of the support plane makes it non-deformable
 Loading system with roller (slide optional)
 Extruded aluminum platform easy to clean
 The device allows to increase the rigidity of the stretcher area and makes the loading of the stretcher easier if a proper slide is installed
 Supplied with 180mm ramp

Reference standard

10g tested according to EN1789:2007+A2:2014

Technical data

Length	1950 mm
Width	610 mm
Platform height	55 mm
Materials	Al,

CROSS UP 8409

10G Self-loading trolley with removable stretcher

Spencer Cross Up 8409 is a self-loading trolley with removable stretcher and adjustable heights for patient transport. It is usable in rescue operations on streets and rescue vehicles. The legs fold away independently, activating the dedicated commands during the unloading procedure, they open automatically.

Specific features

Polyethylene board easy to clean
Color coded commands
Adjustable backrest
Antishock position Trendelenburg
Brakes on rear wheels
Foldable side bars <i>Safe bar</i>
Adjustable heights system allows an easier placing of the patient on the stretcher
The stretcher is easily unlocked from the trolley and is equipped with telescopic handles to allow easier lifting
10G certified if used with fasteners S-MAX or R-MAX

Standard Equipment

ST70000A	PVC anatomic mattress QMX/777
ST70002A	STX 702 two pieces black reflex metal belts

Technical data

Length	1975 ± 10mm
Width	580 ± 10 mm
Trolley weight	31 ± 1 kg
Stretcher weight	21 ± 1 kg
Loading capacity	250 kg
Wheels	ø200 mm ^{±5%}
Height loading carriage wheel	65 cm
Materials	Stainless steel, Al, PE
Side bars length	680 mm
Side bars Height	200 mm

Accessories

VM820E & VM820E1 EMS Vacuum Mattresses

The Multi-Chamber-System (VM820E) keeps the beads in the right position and makes application easy and fast

Durable exterior TPU material, easy to clean and disinfect. The red outside consists of fabric double coated with red TPU film. On the inside blue bio-compatible TPU film is facing the patient

Robust, automatically closing valve with adapters for all pumps

Ergonomical, removable heavy duty handles that are easy to clean, reposition or replace

Colour coded patient restraint straps, adjustable from both sides, easy to clean, reposition or replace

Soft and pleasant material facing the patient

The uniquely thin profile allows for the smallest storage space.

Mattresses with a dimension of 80 x 200 cm need 80 x 45 x 25 cm for storage

An indestructible label with individual serial number and date of manufacture is welded onto every product. Optional are labels with property indicator and distributor logo.

VM820E is CE certified, complies with EN1865 and is X-ray, CT and MRI compatible.

Saltea vacuum adult VM820E

LIGHTWEIGHT STAIR CHAIR

4BELL SILVER+

MAIN FEATURES

- Frame in aluminum makes the chair lightweight and resistant at the same time
- Two telescopic handles at the front and two foldable ones behind the backrest help lifting and transport operations
- Rear wheels' locking mechanism makes sure the chair does not slide on a flat surface
- Semirigid seat and soft backrest are built to increase patient comfort
- Foldable footrest increases patient stability
- Easy to clean PVC seat and backrest are resistant to chemicals
- Pivoting front wheels makes the chair more maneuverable.

Class I Medical Device compliant with MDR (EU) 2017/745

— Tested according to —

- EN 1865-1 EN 1789

PRODUCT DESCRIPTION: The 4BELL SILVER+ is a stair chair designed to transfer or evacuate patients with mobility limitations from multi-storey buildings. The chair is FDA compliant and built in accordance to the specifications set by EN 1865-1. If the stair chair is installed on the 4Bell Max+ bracket, it will comply with 10G crash test according EN 1789 standard. The frame of the chair is made in aluminum for increased resistance. Its total weight is 9,4 kg (20.7 lb).

INTENDED USE: Folding transport chairs like the 4BELL SILVER+ are intended for moving patients and positioning them in a seated position within the ambulance but are not designed for patient transport inside the ambulance itself. They should not be used for parking or stationary positioning.
