CA·MI

2025 HEALTHCARE CATALOGUE

CA·MI — Italian Medical Touch

COMPANY PROFILE

Located nearby Parma, in the North of Italy, CA-MI is an Italian family-run factory founded in 1984 and committed to the production and distribution of electromedical equipments and medical devices in different fields, such as RESPIRATORY CARE, DIAGNOSTICS, REHABILITATION, WELLNESS, BABY CARE, and SUCTION.

The expertise and know-how achieved in over 30 years led CA-MI in the position to export into more than 100 countries and to provide comprehensive answers to the home-care market and medical operators.

Visitors are welcome to meet the members of the CA-MI Export Team at the major international exhibitions: Medica in Dusseldorf (D), Arab Health in Dubai (UAE), FIME in Miami (USA), Medica Asia in Singapore, where CA-MI is costantly present with the entire range of medical devices.

ITALIAN QUALITY

INDEX

ITALIAN QUALITY CERTIFIED WORLDWIDE

Relying on in-house R&D and design departments, all CA-MI suction devices and compressor nebulizers are either manufactured or designed in Italy using state-of-the-art and wear resistant materials, in compliance with all the directives in force.

UNI EN ISO 9001:2015
Quality Management System.

EN ISO 13485:2016
Medical devices - Quality management systems - Requirements for regulatory purposes.

DEVICES CLASSIFICATION
CLASS IIA MEDICAL DEVICES
Suction units, aerosol delivery systems, jet nebulizers, inhalators, nasal irrigator, blood pressure monitors, digital and infrared thermometers, finger pulse-oximeters, antidecubitus mattress.

CLASS IM WITH FUNCTION OF MEASURE
Aneroid / palm-type sphygmomanometers, suction containers, disposable liners and mercury-free clinical thermometers.

CLASS I NON-STERILE
Incentive spirometers, medical stockings, wheelchairs and walkers, stethoscopes.

Technical data, equipment and options shown are based on the latest information available at the time of printing and are subject to change without notice.

ABOUT AEROSOLTHERAPY

Aerosoltherapy is the **administration of a treatment in the form of aerosol into the respiratory tract** for therapeutic purposes. When medications are not available in aerosol form such as an MDI, but only in solutions, nebulizers can turn the liquid into suspended particles that carry the active principle to the patient by inhalation.

CA-MI manufactures nebulizers with different technologies indicated for the treatment of any respiratory disorder, from **administering physiological/hypertonic solutions** as mucus thinners (mucolytics), to **treating seasonal pathologies** such as cold and cough, and **acute and chronic pathologies** of the upper and lower airways.

PARAMETERS & TREATMENTS

Different types of treatments can be generated, according to a few parameters, namely:

MMD OR MMAD
The mean particle size, expressed in micron (μm)

NEB-RATE
The speed of nebulization, expressed in mL/min

RESPIRABLE FRACTION
The amount of particles with diameter <5μm

RESIDUAL VOLUME
The amount of medication that cannot be nebulized

WASTED VOLUME
The amount of medication wasted during exhalation

10-15 μm
Upper airways

5-10 μm
Upper / medium airways

1-5 μm
Medium / lower airways

The **mean particle size (MMAD)** is particularly important, because depending on diameter of the particles, **different areas of the respiratory tract are reached and thus different pathologies or disorders can be treated**.

RESPIRATORY

AEROSOL DELIVERY SYSTEMS

TINY & NOISELESS

CA-MI **vibrating mesh nebulizers** are small hand-held nebulizers that generate the aerosol by a mesh vibrating at high frequency, micronizing the medicine without producing any sound.

A new system which finds more and more applications, not only for children, enjoying the **soundless operation**, but also towards adults, appreciating the **small size, the versatility and the light weight** of this revolutionary aerosol system.
MEDICAL CUP
Light and easy to clean

USB POWERED
The device can be powered through any USB device like a powerbank, a laptop or even your smartphone.

ALWAYS WITH YOU
Very easy to carry and use in any travel condition thanks to its small size.

Small size
HIGH PERFORMANCE

▲ *ONEPro, p. 4*

▲ *Evolution, p. 8*

A PLACE FOR EACH ACCESSORY

CA-MI always designs its devices with its customers' needs in mind: the aerosol delivery system line includes **handy and compact models** provided **with a carrying bag** for storage of the unit, accessories and medicines, or **table-top models with a built-in compartment** designed for accessories and medicines storage.

DURABLE & EFFICIENT

CA-MI **compressor nebulizers** are characterized by a main unit, the piston-type compressor, and the jet nebulizer, which is a chamber turning the liquid medicine into aerosol.

CA-MI compressors are approved for **Non-Stop Operation** and do not require any oil lubrication or maintenance, making them suitable for both **prolonged home care use and intensive professional use in the hospitals.**

Additionally, a specific attention is dedicated to emergency and ambulances: micropiston compressors are placed in miniaturized housings to create devices powered by rechargeable batteries and 12V car adapter.

SAFE & STABLE

All CA-MI jet nebulizers are made with **safe biocompatible material** which passed stability test with the most prescribed active principles, **guaranteeing that no alteration of the drugs** takes place.

Tested medicines are: *Ambroxol, Salbutamol, Beclometasone Dipropionate, Acetylcysteine and Budesonide.*

ONEPro
MOBILE MESH NEBULIZER

USB Powered
No internal battery to recharge. The device is powered by the USB devices you use daily.

Wearable design
The peculiar design and the small size allow to apply it to the face and to use it also hands-free.

Baby friendly
Easy to wear thanks to its small size and pleasant to hear thanks to its low noise level,

Always with you
Very easy to carry and use in any travel condition thanks to its small size.

INCLUDED ACCESSORIES

ADULT MASK + CHILD MASK
with elastic strings
MOUTHPIECE + NOSEPIECE
non-invasive
POWER SUPPLY
2 USB ADAPTER
USB-C and USB-Lightning

PRODUCT CODE RE 300912/01

KIWI+
MOBILE MESH NEBULIZER

Fast & efficient
Second generation mesh nebulizer, 8mL capacity, takes only 6 min with 2,5 mL of drug (0,30mL/min).

Long lasting batteries
The lithium batteries last up to 1100 hours of operation or 300 charging cycles, making it the ideal device for travelling.

Always with you
Tiny and easily transportable thanks to its small size. It can be operated by lithium battery and easily stored.

Baby friendly
Easy to hold thanks to its small size and pleasant to hear thanks to its low noise level (38,2dB(A)),

High-quality accessories
Equipped with a wide range of accessories with comfortable soft touch finishings.

Autocleaning function
Reduces the risk of annoying clogging of the mesh caused by improper cleaning at the end of each use.

Excellent nebulization
Fine particle size of 1,51 micron, 93% of which is <5 micron and <0,1mL residual volume.

INCLUDED ACCESSORIES

VIBRATING MESH CHAMBER
2nd generation
ADULT MASK + CHILD MASK
with soft touch finishing
MOUTHPIECE + NOSEPIECE

KUBYNEB
HOME CARE COMPRESSOR NEBULIZER

Non-stop operation
The device can work without interruption, in order to guarantee the best performance.

A place for each accessory
Designed to store accessories and medicines inside the dedicated large compartment.

Fast & efficient
Fast HI-FLO Nebulizer, 7mL capacity, takes only 4minutes with 2,5 mL of drug (0,5mL/min).

Quiet
Noise level comparable to the volume of a conversation (~60dB(A)).

Excellent nebulization
MMAD: 3,25 µm, respirable fraction >70%, residual volume: 0,40 - 0,50 mL.

INCLUDED ACCESSORIES

HI-FLO
jet nebulizer (see page 10)
ADULT MASK + CHILD MASK

HI-4
FOUR SPEED JET NEBULIZER

Professional Performance
Designed with two valves for a greater therapeutical effect of the nebulization.

4 speeds — Multiple speed
A speed selector can be set in 4 different positions to increase nebulization speed while maintaining an optimal MMAD.
Highly compatible
Passed stability test with the most prescribed active principles (Ambroxol, Salbutamol, Beclometasone Dipropionate, Acetylcysteine, Budesonide).

Excellent nebulization
8 mL capacity, MMAD ranging from 3,32 to 4,28 μm and neb-rate from 0,40 to 0,80 mL/min, depending on selected speed.

TECHNICAL SPECS

EXHALATION VALVE
Opens only during exhalation phase to let the medication out.

INHALATION VALVE
Opens only during inhalation, entraining additional ambient air into the chamber increasing dramatically the speed and quantity of delivered medication.

SPEED SELECTOR
Four different nebulization speeds.

POS	NEB RATE	MMAD
I	0,40 mL/min	3,32 μm
II	0,60 mL/min	4,07 μm
III	0,70 mL/min	4,23 μm
IV	0,80 mL/min	4,18 μm

AVAILABLE SETS

ABOUT FEVER

A fever is **a temporary increase in the body temperature**, often due to an illness. A normal temperature can vary from person to person, but it is usually around 37°C. Normal body temperature may also fluctuate depending on the time of day. It tends to be lower in the morning and higher in the late afternoon and evening. Other factors, such as menstrual cycle or intense exercise, can also affect body temperature.

Having a fever is a sign that **something out of the ordinary is going on in the body.** Fever seems to play a key role in **helpingthe body fight off a number of infections.**

For an adult, a fever may be uncomfortable, but usually is not cause for concern unless it reaches 38°C or higher. For infants and toddlers, a slightly elevated temperature may indicate a serious infection.

ECOLOGICAL, DIGITAL OR INFRARED?

An accurate reading of a person's temperature is a vital tool in managing illnesses. CA-MI provides different models of thermometers to satisfy any requirement in monitoring body temperature.

Mercury-free types are eco-friendly, digital types have rigid or flexible tip, and infrared scanners are quick and contactless, yet they all guarantee accurate and safe results.

▲ *Digit-10P, p.19*

▲ *T-Vedo, p.20*

DIAGNOSTICS

THERMOMETERS

QUALITY & ACCURACY

With the objective of combining **accuracy, easiness and quickness** in reading temperature, CA-MI pays special attention to the selection of **premium components**, such as sensors, probes and plastics. In fact, CA-MI thermometers are largely requested by users worldwide.
SMART MEASUREMENT
Temperature is measured without pressing any button. The device beeps to notify the measurement conclusion.

FEVER ALARM
Triple color led and buzzers to indicate different temperatures.

POCKET SIZE
The compact IR thermometer to always carry with you, only 2.5 x 4.5 cm.

Always
WITH YOU

▲ *T-Touch, p.16*

NON-CONTACT ADVANTAGES

There are several distinct advantages that have made non-contact thermometers very popular. First of all the possibility of **passing contagious infections** from one person to other **is ruled out** altogether. No matter how carefully you rinse or clean the bulb of the conventional mercury thermometer, the risk of infection transmission cannot be eliminated.

There are times when the **temperature** of the diseased person **has to be recorded periodically**, sometimes even when the patient is taking rest or sleeping: with those thermometers, any nurse can record the body temperature of the patient without disturbing. This same feature is also very helpful in taking the temperature of infants, kids or even aged persons with limited motor controls.

They also come with a **recording function** to check the latest readings, helpful in making accurate temperature charts for the physicians who need to diagnose and decide the line of treatment.

The large digital display allows for **easy reading** even for people with vision problems. More over these thermometers, can have **multiple uses** like measuring the temperature of warm water for baby bath or of infant feed, milk, etc.

◄ *T-Plus, p. 17*

◄ *Counter display box for digiT-40 and digiT-40F thermometers, p.18*

T-TOUCH
INFRARED THERMOMETER

IR contact technology
Instant temperature detection by placing the thermometer on the forehead surface.

Smart measurement
Temperature is measured without pressing any button. The device beeps to notify the measurement conclusion.

Fever alarm
Triple color led and buzzers to indicate different temperatures.

Wide memory
Stores up to 20 measurements for easy monitoring.

Energy save
Low consumption: more than 1200 measurements with 1 CR2032 battery. Automatic shutdown.

Pocket size
The compact IR thermometer to always carry with you (only 2.5 x 4.5 cm).

INCLUDED ACCESSORIES

3V VOLT BATTERY
1xCR2032
SOFT POUCH

PRODUCT CODE TR 100401

T-EASY
INFRARED THERMOMETER

Non-contact technology
Measurements are taken up to 5 cm from the forehead guaranteeing the best hygienic conditions.

Instant measurements
Extremely quick: takes 1 second to measure temperature.

Auto cooldown
Prevents systematic errors caused by too frequent tests.

Fever alarm
Triple color backlight and 3 different buzzers to indicate different temperatures.

Dual mode
Detects both body and surfaces temperatures.

Wide memory
Stores up to 30 measurements for easy monitoring.

Energy save
Automatically shuts off after 30 seconds.

INCLUDED ACCESSORIES

CARRYING BAG
for safe storage and transport

1.5 VOLT BATTERIES
2 x Alkaline AAA size

PRODUCT CODE   TR 100500/01

T-PLUS
INFRARED THERMOMETER

Non-contact technology
Measurements are taken between 0-3cm from the forehead guaranteeing the best hygienic conditions.

Instant measurements
Extremely quick: takes 1 second to measure temperature.

Superior accuracy
Provided with 3 special sensors detecting temperature, correct distance, and temperature balance. Operated by the extremely precise Japanese state-of-the-art firmware.

Position aid
A dedicated distance sensor guides user to reach the correct measuring distance.

Auto cooldown
Prevents systematic errors caused by too frequent tests.

Fever alarm
Triple color backlight and 3 different buzzers to indicate different temperatures.

Wide memory
Stores up to 30 measurements for easy monitoring.

Energy save
Automatically shuts off after 30 seconds.

Dual mode
Detects both body and surfaces temperatures.

INCLUDED ACCESSORIES

RIGID PLASTIC CASE
for safe storage and transport

1.5 VOLT BATTERIES
2 x Alkaline AAA size

PRODUCT CODE TR 100500

THERMO ELITE
DIGITAL THERMOMETER

New!

Protective & rechargeable case
The magnetic storage case not only protects the thermometer, but also acts as a charging station for the thermometer, using the alkaline batteries provided.

Dual measurement
Fast predictive reading in just 15 seconds or an accurate reading in just 3 minutes.

Discreet notification
The thermometer notifies you when the measurement is complete with a discreet vibration that differs depending on whether the temperature is normal, mildly elevated, or high.

LED indicator
Temperature clearly readable on the elegant integrated screen.

Waterproof
Ideal for safe use in any situation.

Energy saving
Automatically turns off after 3 minutes of inactivity, extending battery life.

Display box
The 4-colour box can be folded and used as display box on retail counters.

INCLUDED ACCESSORIES

PLASTIC CASE
acting as a charging station for the thermometer

1.5 VOLT BATTERIES
3x AAA alkaline batteries

CODE AET-F372

DIGIT-10P
DIGITAL THERMOMETER

PREDICTIVE
Advanced algorithm predicting the correct temperature with superior accuracy, no matter where you measure it.

SUPER QUICK
Takes only 10 seconds to measure body temperature.

EASY-READ
Thanks to a wide LCD screen of 2,35 x 1,55 cm with 3 backlight colours.

FEVER ALARM
Triple color backlight to indicate different temperatures.

SHOCK & WATERPROOF
Certified IP55 rating.

EASY TO CLEAN
With any alcohol-based solution.

ENERGY SAVE
Automatically shuts off after 5 minutes.

LONG LASTING
Up to 600 measurements and three years of life thanks to the replaceable battery.

DISPLAY BOX
The 4-colour box can be folded and used as display box on retail counters.

INCLUDED ACCESSORIES

PLASTIC CASE
for safe storage

3V BUTTON BATTERY
type CR1632

BLOOD PRESSURE MONITORING

Blood pressure is the term used to describe **the strength with which blood pushes on the sides of the arteries** as it is pumped around the body.

High blood pressure (hypertension) can put a strain on the arteries and organs, which **can increase the risk of developing** serious problems such as **heart attacks and strokes**. Low blood pressure (hypotension) is not usually as serious, although it can cause dizziness and fainting in some people.

Monitoring blood pressure is the only way to find out if the blood pressure is too high or too low, because most people will not have any obvious hypertension symptoms.

DIFFERENT SOLUTIONS FOR EVERY NEED

A variety of blood pressure monitors is available so so blood pressure can be measured while at home or out and about. Whether one's preference goes to wrist or upper arm type, CA-MI has the perfect product to suit every need.

UPPER ARM
Classic design meets state of the art technology. Thanks to the implemented inflation technology measurements are quick, gentle and reliable.

WRIST TYPE
Small in size, yet accurate. Quick and easy to wear and very convenient for everyday use, wherever you are.

D I A G N O S T I C S

BLOOD PRESSURE MONITORS

COMFORTABLE & EASY TO USE

CA-MI selected a wide range of products that grants reliability, comfort and ease of use. Anyone can check their own blood pressure every day, and assist the clinician with accurate information.

COMFORTABLE
Soft-finishing cuff, wrapping gently around the arm.

EASY TO READ
Blood pressure values are classified according to the World Health Organization guidelines.

RELIABLE
Guarantees reliable results thanks to body movements and interferences detection system.

QUICK AND GENTLE
Thanks to the inflation technology blood pressure is monitored in a gentler and quicker way during the gradual inflation of the cuff.

Italian Design
JAPANESE TECHNOLOGY

▲ *Nissei Comfort, p. 26*

STATE-OF-THE-ART TECHNOLOGY

Nissei Motion is the first wrist type blood pressure monitor combining the gentleness of inflation technology with the superior accuracy of the High Resolution System and M-Shaped Cuff.

▲ *Nissei Motion, p. 30*

CA-MI IS EXCLUSIVE EU DISTRIBUTOR OF NISSEI

PRECISE AND VALIDATED

Most of CA-MI devices passed the ESH (European Society of Hypertension) clinical accuracy test, known as the most stringent test of clinical accuracy in the world.

Moreover, to display measurements in a more comprehensible and worldwide recognized way, these devices comply with the WHO Classification Guidelines.

ARMÒNIA
UPPER ARM BLOOD PRESSURE MONITOR

Smart inflation technology
Smart inflation technology reduces discomfort caused by sudden changes in pressure on the limb, ensuring a more comfortable measurement.

Exceptional visibility
The large 4.5-inch LCD screen with LED technology ensures clear and immediate reading in all conditions,

Extreme flexibility
The screen can be positioned at different angles (0°, 25°, 50°) or vertically (90°).

Irregular heartbeat detection
Detects irregular pulse rhythms, index of cardiac arrhythmias.

Body sensor
Detects body movements or interferences that may cause measurement errors.

Comfort cuff
The cuff fits arm sizes from 22 to 42 cm and wraps gently around the arm thanks to its soft finish.

Switchable power supply
AC adapter (not included) or AAA alkaline batteries.

Cuff Status Function
Checks the correct positioning of the cuff before measurement.

Double memory, double user
Stores up to 99 results in each of the memory banks.

Always with you
With a thickness of only 2.8 cm and a flat design, it can be easily stored with the cuff in the soft bag.

WHO Classification
Blood pressure values are classified according to the World Health Organization guidelines.

INCLUDED ACCESSORIES

CARRYING BAG
1.5V BATTERIES
2 x Alkaline AAA size, replaceable

CARDEX
UPPER ARM BLOOD PRESSURE MONITOR

Innovative inflation technology
Measurements are quicker and gentler: blood pressure is monitored during the gradual inflation of the cuff.

Irregular heartbeat detection
Detects irregular pulse rhythms, index of cardiac arrhythmias.

Body sensor
Detects body movements or interferences that may cause measurement errors.

Comfort cuff
The cuff can fit a wide range of arm sizes: 22 - 32 cm. Thanks to its soft finishing, it wraps gently around the arm.

Average value
Displays the average of the latest three readings.

Switchable power supply
Can be used with AC adapter (not included) or AAA alkaline batteries.

Cuff Status Function
Checks the correct positioning of the cuff before measurement.

WHO Classification
Blood pressure values are classified according to the World Health Organization guidelines.

NISSEI MOTION
WRIST BLOOD PRESSURE MONITOR

HiRS
High Resolution System

Hi-Resolution System
Scans pulse wave 6 times more frequently than conventional monitors, allowing the detection of irregular pulse rhythms which may be an indicator of cardiac arrhythmias, such as atrial fibrillation.

Innovative inflation technology
Measurements are quicker and gentler: blood pressure is monitored during the gradual inflation of the cuff.

Body sensor
Detects body movements or interferences that may cause measurement errors.

M-Shaped cuff
Improves measurement's precision binding the two wrist's bones securely so that arterial blood vessels are firmLy tightened during inflation.

Irregular heartbeat detection
Detects irregular pulse rhythms, index of cardiac arrhythmias.

Cuff Status Function
Checks the correct positioning of the cuff before measurement.

Double memory, double user
Stores up to 60 results in each memory bank.

Always with you
Compact and easily transportable thanks to its rigid protective case.

DESIGNED FOR PROFESSIONALS

CA-MI matches its home-care diagnostic line with a range of product suitable for clinicians of all levels. A selection of devices adequate for practitioners as well as cardiologists who require more accurate and reliable instruments to validate their diagnosis.

▲ S-100 Cardio, p. 35

ALLERGY-FREE AND DURABLE MATERIALS

Latex allergic reactions can range from mild skin rashes to severe and life-threatening anaphylactic shock. Since no known cure for latex allergy exists, avoidance of latex exposure is the only protection. Healthcare facilities have taken a variety of approaches to reduce both worker and patient exposure to latex. These include replacing products made of natural rubber latex with those made of alternative materials.

CA-MI selected its products in order to provide the safest and most durable materials.

SUCTION

MONITORING BLOOD-OXYGEN SATURATION

Pulse oximeters are devices designed to be **positioned on a finger to get in few seconds the blood-oxygen saturation** (SpO_2) level, expressed as a percentage.

Values above 95% are to be considered natural, and therefore generally good, while the lower they get under that threshold the critical they are (a poorly oxygenated blood does not properly nourish body tissues and organs).

SpO_2 is an important parameter for the **prevention of critical conditions** affecting internal tissues and organic functioning, providing important information to the physician on the possible **presence of serious pathologies** such as: heart failure, arterial stenosis, ARDS (acute respiratory distress syndrome), COPD (chronic obstructive pulmonary disease), pulmonary emphysema, congenital heart defects, cystic fibrosis, critical conditions caused by drugs (allergy or overdose).

More over, the use of a pulse oximeter may be crucial to monitor extreme activities, such as mountaineering at high altitudes or scuba diving, in order to avoid dangerous situations.

CERTIFIED QUALITY

CA-MI has been successfully distributing many models of pulse oximeters suitable for different users and applications.

We are certified medical device manufacturers and always strive to provide the best product and service.

A CONCRETE AID FOR EVERYDAY LIFE

As people age, everyday activities previously taken for granted can become difficult or, at times, impossible to perform. In their usual design, common tasks may require the help of other people, creating stress or frustration.

CA-MI rehabilitation range is designed to help people retain independence, providing products aiming to help in the accomplishment everyday task in the easier way.

SAFETY & RELIABILITY AT HAND

CA-MI has selected only high-quality products, made with durable and safe materials.

Convenient to handle, easy to transport and at the same time trustworthy and realiable, thanks to the included safety devices, the whole rehabilitation range aims to provide solutions which guarantee only the best performance.

REHABILITATION

WHEELCHAIRS & WALKERS

HC0203
SELF-PROPELLING WHEELCHAIR

Self-propelling
Hand rims on rear wheels allow users to push themselves forward.

Foldable
The chair is designed to fold compactly in size (only 26 cm when closed).

Easy to handle
Lightweight, thanks to its aluminum structure, and easy to store and transport.

Comfortable & customizable
Padded seat and backseat in black nylon with document pocket on the back. Foldable padded armrests covered in black leatherette.
Optional padded legrests available.

Made to last
Reduced maintenance and longer life thanks to the high-quality materials: single crossbar powder coated steel frame, rear wheels in rocket aluminum with tubeless PU tires and black painted steel handrails.

INCLUDED ACCESSORIES

PADDED ARMRESTS
Short and foldable covered in black leatherette
ADJUSTABLE FOOTRESTS
in black plastic, removable
COMFORTABLE CALF STRAP

HC0616
3 IN 1 STANDARD COMMODE CHAIR

Multipurpose
Can be used wheter as shower chair or commode chair with bucket or positioning it on the WC.

Safe & reliable
Ergonomic armrest design, comfortable and non-slip armrests to provide the best assistance to get out.

Customizable
Adjustable height to fit different users (44-57cm).

Made to last
Reduced maintenance and longer life thanks to the high-quality materials: powder coating steel frame and resistant plastic, waterproof, durable and easy to clean.

PRODUCT CODE   HC0616

NEW THERMAR
HEATING PAD

Targeted
The pillow is designed for a targeted application of heat. It is used for therapeutic purposes or simply as a source of immediate relief and relaxation for the body.

Adjustable
The control with display allows the selection of the desired temperature, with 4 levels of intensity adjustment.

Full body
It can be placed on multiple parts of the body (neck, shoulders, back, abdomen and joints).

Smart
Equipped with rapid heating and auto-off functions after 90 minutes.

Soft & Hygienic
Soft fabric lining washable at 30 °C.

INCLUDED ACCESSORIES

HEATING PILLOW
30 x 40 x 1 cm
POWER CABLE
Length: 2 m
CONTROL WITH DISPLAY
4 heat levels

PRODUCT CODE TM 100100

MAT-130
ANTI DECUBITUS MATTRESS

Adjustable bubbles type
Made of 130 air bubbles and equipped with end flaps for correct positioning in the bed. Pressure can be adjusted to best fit with patient weight.

Delicate
Massages skin delicately at alternating points of contact for improved blood flow and tissue oxygenation preventing bedsore ulcers formation.

Safe & non-toxic
Made of highly elastic non-toxic PVC, resistant and easy to clean.

Self inflating
Easily inflates with its own compressor.

INCLUDED PARTS

INFLATABLE MATTRESS
280 x 90 x 6,5 cm made of PVC
AIR PUMP
230V / 50Hz, Output: 5 l/min

PRODUCT CODE   DE 620010

PULMOGAIN
INCENTIVE SPIROMETER

Ideal for rehabilitation
Helps keep lungs active when the patient is recovering from surgery, as if she was at home performing daily activities.

Deep inhalation
Patient exercises through strong and deep inhalation.

Gradual
Designed to improve patient's performance gradually thanks to the 3 variable weight floaters.

Hygienic
Can be disassembled for cleaning and washing purposes to guarantee the best hygienic conditions between uses or patients.

Modular
Can be connected with Pulmolift for a full inhalation/exhalation cycle.

Multi-user
Replaceable spare parts make it the ideal device to use for more than a patient.

INCLUDED ACCESSORIES

AIR TUBE | SP 0156
AIR FILTER | SP 0154
MOUTHPIECE | SP 0155
PLASTIC CAP | SP 0159

THE BEST TREATMENT FOR VENOUS STASIS

Elastic compression, i.e. the use of graduated compression stockings, is the treatment of first choice in the prevention and treatment of circulatory disorders in the lower limbs.

Elastic stockings work by exerting an external counter-pressure on the leg promoting a better venous return to the heart by reducing or resolving blood and lymphatic stasis and stagnation. The compression exerted at the ankle is equal to 100% of the indicated mmHg and decreases regularly along the limb until it reaches 40% at the thigh.

Kàmila

Kàmila is an entirely MADE IN ITALY brand with a young, refined style aimed at quality.

Precious raw materials, cutting-edge production facilities and scrupulous controls during the production phases are the brand core values.

These principles of reliability and fifty years of experience have led to the creation of 2 lines: preventive and medical), both available

in different lengths, colors and sizes,.

Therapeutic action
A wide range of products to satisfy any patient's need, such as post-operative therapies, cases of ulcers, prophylaxis of varicosities, prevention of thrombosis and post-gypsum treatments.

RAL certification
Kàmila Medical achieved the RAL certification for the high quality compression, components and construction features.

Variety
Specific lines for all needs in venous disorders: COTTON, MICROFIBRE and POLYAMIDE, in KKL I and II. Also available the ALL USA cotton line in American CL 2 for advanced chronic venous insufficiencies.

CLASS	MATERIAL	COMPRESSION
KKL I	18-21 mmHg	Microfiber / Cotton/ Polyamide
KKL II	23-32 mmHg	Microfiber / Cotton
CL 2 (american)	30-40mmHg	Cotton

BEAUTIFUL LEGS
PRESSOTHERAPY

Legs health & wellness
Reactivates circulation effectively, reducing water retention and minimazing cellulite imperfection.

Beauty or medical mode
Two treatment modes available: by alternating between compression and decompression it provides medical or beauty treatments improving lymphatic drainage and restoring circulation and venous activities.

Adjustable treatment duration
Patients can choose 10, 20 or 30 minutes according to their own conditions and/or medical prescription.

Completely customizable
Pressure range from 20 to 250 mmHg. Each garment has 4 inflation chambers: during therapy they can be partially disabled.

Whole body treatment
9 different kind of cuffs to cover the entire body.

START OFF ON THE RIGHT FOOT

Every mum wants what's best for her baby from day one. Then it's good to know there is expert advice on hand to help take care of mums and babies during the first stage of their lives. CA-MI products will support the choices of mums in every field of babies' growth, as this company aims to help every mum to make her baby start off on the right foot.

▲ Shortino, p. 66

A WHOLE WORLD FOR NEWBORNS CARE

CA-MI products are selected to support every mum's choice. Hence, whether it's breastfeeding or bottle-feeding, and while monitoring and taking care of the baby's health, CA-MI's there from the very first steps.

BABY-CARE

My Baby CA·MI

THE IMPORTANCE OF BREASTFEEDING

Breast milk is the best for the baby's start in life. It contains all the necessary substances to satisfy the nutritional and psychological needs of the newborn up to the age of 6 months and provides natural protection against infections as well as supporting the infant's ongoing health and development. CA-MI 's breast pumps are designed to help mothers in the breastfeeding journey, making it easier and comfortable to give their children all the advantages of breast milk.

SAFE & HYGIENIC
Made of medical grade silicone, safe to use and easy to sterilize.

COMFORTABLE
Soft, flexible cushion, feels extra comfortable on the breast.

ADJUSTABLE
Aspiration can be adjusted to respect maternal breast sensibility and guarantee painless milk extraction.

▲ Mucus p. 67

Comfortable
EASY-TO-USE

▲ Mamy Milk p.67

GENTLE & SAFE

CA-MI products are made only with the best materials to guarantee that every baby is treated with the gentleness and safety they deserve.

SPEEDY PAPPA
BOTTLE WARMER

Universal
Suitable for all milk bottles models.

Reliable
Warms milk gradually and in a uniform way.

Multifunction
4 modes helping mothers taking care of their babies:
37 - 44° C Defrosts and keeps warm
50°C Heats milk
70°C Heats baby food
100°C Sterilizes small items

Sterilize mode
Can be used to sterilize small objects.

Touch Control
Digital operation allows you to select the setting you want and keep the temperature constant.

SHORTINO
BOTTLE WARMER

Universal
Suitable for all milk bottles models thanks to its 6 bottle adapters.

USB charging
Thanks to the internal battery that can be recharged via USB, it can be used in all situations, even when traveling or away from home.

Multitemperature
Temperature can be adjusted easily and instantly (37°C / 40°C / 45°C / 50°C)

Lightweight & easy to handle
Its small size and weight make it easy to carry, even in a stroller.

Night mode
The light at the base makes it usable even during the night, without disturbing your baby's sleep.

Fast & efficient
Heats milk in less than 3 minutes and can keep it at 40°C for up to 13 hours after charging.

SUCTION

MEDICAL SUCTION

Surgical suction units are medical devices used to remove surgical fluids, tissue, gases and bodily fluids by sucking the material through a cannula into a collection jar.

Thanks to it's thirty-years experience, CA-MI designed a complete line of high-quality vacuum solutions combining reliable suction power, ease of use and handling.

CA-MI suction units can be devided in three main categories to suit different needs and settings such as wards, theaters, ambulances, home-care etc.

CATEGORIES

DESK-TYPE
Portable suction units with reduced size and weight that can be easily displaced. Trolley on castors available as an option.

BATTERY-OPERATED
Suction units that besides standard operation by mains have autonomy by internal rechargeable battery.

ON-CASTORS
Professional suction units on antistatic castors, offering a great choice of accessories for various applications.

S U C T I O N

SURGICAL SUCTION UNITS

made in Italy

DESK-TYPE / BATTERY OPERATED MODELS

ANTIBACTERIAL/HYDROPHOBIC FILTER
Single-patient filters to avoid cross contaminations and liquid passage to the pump.

LIQUID COLLECTION JAR
Single or multiple containers in different sizes and materials, reusable or disposable. Provided with cover and overflow valve system.

VACUUM REGULATOR
Manual knob/digital keys for accurate adjustment of vacuum levels.

VACUUM GAUGE
Analogic display in different diameters with graduated scale in mmHg and kPa (interval by 5).

ON/OFF SWITCH
Mechanical or digital switch.

CONICAL CONNECTOR
Different diameters to connect any type of cannula.

ON-CASTORS MODELS

MPR SYSTEM (MULTI-PURPOSE RAIL)
Easy interchange of CA-MI accessories, such as rings of various diameters to accommodate jars, safety trap bottles, cannula holders or a standard medical rail where to hook any accessory by means of standard clamps.

SAFETY TRAP BOTTLE
An additional protection of the pump besides the overflow valve system inside every jar.

HANDLE
for easy displacement

REAR COMPARTMENT
for accessory storage.

4 X TWIN ANTISTATIC CASTORS
Ø 75 mm with brakes with 360° swivel.

FOOT-SWITCH PEDAL
for intermittent or continuous use.

SURGICAL SUCTION UNITS CATALOGUE

REUSABLE COLLECTION SYSTEMS

Produced with resistant and safe materials, these jars are made to last thousands of sterilization cycles.
They fit both Ca-mi suction units and central vacuum systems.

COVER
Screw cover with handle, for easy grip, and overflow valve system preventing liquid spills.

O-RING
Watertight gasket made of autoclavable silicone.

AUTOCLAVABLE JAR
Rigid graduated container available in different types of polycarbonate and sizes.

Materials:

Makrolon® Polycarbonate (autoclavable at 121°C)

APEC® Polycarbonate (autoclavable a 143°C)

UDEL® P-1700 Polysulfone (autoclavable at 134°C)

Sizes: 1000 mL / 2000 mL / 4000 mL / 5000 mL

DISPOSABLE COLLECTION SYSTEMS

FLOVAC® DISPOSABLE LINER
A soft polyethylene bag hermetically welded to a rigid lid.
It contains a hydrophobic, antireflux and antibacterial filter that also operates as overflow valve system.
Available with gelling kit: a germicidal powder which prevents cross-contamination turning liquids in a semi-solid mass.
Sizes: 1000 mL / 2000 mL / 3000 mL

FLOVAC® REUSABLE JAR
Graduated reusable container in polycarbonate.
Sizes: 1000 mL / 2000 mL / 3000 mL

RIGID LID
hermetically welded to the soft bag

TANDEM PORT
for connection of several liners in cascade

VACUUM PORT (FEMALE)
connecting to Ca-mi suction units

PATIENT PORT (MALE)
connecting to the patient hose

PATIENT PORT PLUG
to close the patient port before disposal

TANDEM PORT PLUG
to close the tandem port when only one container is in use or before disposal
