## REFLEX L600

### LATEX GLOVES WITH ALOE VERA

#### HIGH THICKNESS

The ALOE VERA is processed in the inner side of the glove in a cold cycle without using grease.

It is then dried to preserve all the features, without affecting the beneficial properties of the plant. The heat and humidity of the hand reactivate the beneficial properties of ALOE VERA. Internally chlorinated for easy donning.

Micro-roughened surface to increase the grip.

Disposable, ambidextrous and powder free.

WEIGHT 6.2 g

ALOE VERA RELIEVES  
ITCHING OR BURNING  
SENSATION

#### ITEM / SIZE

L600 XS L600 S L600 M L600 L L600 XL

Among the therapeutic properties of the aloe vera many are related to the skin health.

## REFLEX N350

### HYPOALLERGENIC NITRILE GLOVES

#### ACCELERATORS-FREE

Low Derma™ is the result of a special, proven and reliable production technology that **eliminates most of the causes of type IV allergies**: the accelerating agents.

Sulfur-free and accelerators-free - e.g. thiurames, carbamates, benzothiazoles. Improved elasticity and force at breakability.

Micro-roughened surface to increase the grip.

Dispoable, ambidextrous and powder free.

### THERMOPLASTIC ELASTOMER GLOVES (TPE)

POWDER FREE,  
DISPOSABLE, AMBIDEXTROUS

**Easy donning and removal**  
thanks to the wide cuff and the  
availability of several sizes.

Its rough surface allows a secure  
grip and increased sensitivity.

Good resistance and elasticity in  
comparison to polyethylene gloves (HDPE  
and CPE), thanks to increased thickness  
and the use of more flexible materials (TPE).  
**Great value for money** if the glove is  
needed just for hygienic purpose.
