BRIEF INTRODUCTION

Founded in 2007, Wuhu Ruijin Medical Instrument & Device Co.,Ltd is a national high-tech enterprise which focus on the research and development, manufacturing, distributing and service of orthopedic surgical power tools.

We have more than 100 employees. In the past thirteen years, we have been focusing on the research and development of orthopedic power tools. At the same time, we have also introduced cutting-edge automated production and inspection equipment in the industry, and has obtained a number of patent certificates.

Currently, our product sales and service network covers 34 provinces, municipalities and administrative regions across the China, and more than 100 countries in overseas market. Our goal is to become a first-class company in the field of orthopedics power tools, to be a representative enterprise in the industry, and to contribute to the cause of human health.

Core values: quality-oriented, service first-oriented, cherishing talents, and independent innovation.

Corporate Vision: build Ruijin into a leading domestic and world-renowned brand with the spirit of craftsmanship.

Corporate mission: provide every orthopedic doctor with high-quality surgical tools to protect human orthopedic health
