

## Declaration of Similarity (DOS) for Product Families

We, NetApp, declare that the following product families are covered under the same regulatory model number due to their similarity in all electrical and electromagnetic aspects from a regulatory perspective. The regulatory assessment was made on each representative configuration of system in a typical worst-case installation. The following table describes the detail differences between marketing model numbers.

Regulatory Model Number	Marketing Model Numbers	References
NetApp brand: <b>NAF-1901</b>	FAS8300	Enterprise data storage equipment consisting with PCM controller modules
	AFF A400	Same as FAS8300 rebranded for all flash version
	FAS8700	Same as FAS8300 except processor and memory

A handwritten signature in black ink, appearing to read 'B. Karsak'.
