

CERTIFICATE OF WARRANTY EXTENDED PARTS WARRANTY (SW2)

Warranty on 24 months or 1500 operating hours

This Supplementary Agreement extends the machine warranty for repair parts to the total service life of the **above months** or **above operating hours**, depending which is reached first.

The **EXTENDED PARTS WARRANTY** program reimburses **material costs** for all damages under the same conditions and prerequisites as during the standard warranty period.

Extended warranty conditions:

1. **The basis for every extended warranty is a Service Agreement (including Maintenance or Full Service Agreement)** concluded between the BOMAG agent or BOMAG service partner and the end customer to ensure mandatory maintenance/servicing and inspection (at least once a year) by BOMAG-certified service personnel.

This service agreement contains at least the following conditions:

- a. Only BOMAG Genuine Parts are to be used for all maintenance and repairs.
 - b. All lubricants, operating materials, and fuels comply with the specifications in the operating and maintenance instructions.
 - c. A complete record with date and operating hours of all maintenance and repairs must be kept and made available to BOMAG as required.
2. The EXTENDED PARTS WARRANTY excludes labour, travel, transport and freight costs as well as maintenance and wear parts, batteries, oils and operating materials.
 3. In case of non-compliance with points 1 a) to c), the warranty period shall be reduced to the statutory minimum term of 12 months or 1000 operating hours; the first event shall apply.

General terms and conditions

BOMAG shall not be liable for consequential damages, such as breakdown costs, damages, rental of replacement devices or lost profits, which result from a failure of the BOMAG machine during the warranty period, with the exception of the cases stated in our general terms and condition of sale and delivery.

In the event of a warranty claim, the customer will grant a reasonable period of time for the supply of spare parts and the necessary work to be carried out.

Parts replaced during the warranty period become the property of BOMAG. BOMAG undertakes to repair or replace any parts or components it deems defective at its discretion. No claim shall be asserted against BOMAG for a reduction in the purchase price or a change in the object of purchase.

Repairs and procedures not performed by BOMAG or personnel authorised by BOMAG during the guarantee period will result in the loss of warranty claims.

Damage caused by excessive operational demands, including the continuation of operation after recognition of a defect, improper handling and maintenance, external influence (wilful damage), use of unsuitable operating materials, as well as non-compliance with the operating instructions, shall not be covered by the warranty. The same applies to damage caused by normal wear and tear.

Warranty claims can only be asserted with BOMAG GmbH or the authorised BOMAG dealer.
