Professional Experience Record (selected assignments):

Name of assignment or project: EcoExpert Manager, Senior Environmental expert. Leading Projects on Waste, Water, Sanitation, Energy and Environmental Impact Assessment

Year: 09/2015–ongoing

Location: Moldova

Client: Various Clients (mayoralities, WB, GIZ, EBRD, SDC, ADA, etc.)

Positions held: Managing Director, Senior Environment Consultant, Main Coordinator in developing new projects

Activities performed:

General Water Supply and Sanitation Plan (GWSSP) for the Ialoveni Raion, Part II, Sanitation in Moldova (Assist AquaPro in performing) – on-going.

Conduct functional analysis of water sector in Moldova (SDC-ADA).

Environmental Impact Assessment for Regional Management Waste zones no.5 and no.8. (GIZ project) (2017)

Gender, Social and Environmental Impact Analysis (GSEIA) and the development of a Management and Sustainability Plan (MSP) in the framework of the Project “Strengthening the water supply and sanitation infrastructure in rural areas focusing on safe wastewater disposal in the town of Cantemir” (ADA Project) (2017-2018).

Environmental audit for wine factory in Biesti, Orhei region (waste water).

Environmental Assessment of Vatra quarry (receiving, sorting, reusing, storage of inert construction wastes and re-cultivation of quarry).

Sewerage and waste water treatment plant in Cioresti village (30 km of sewer system and 400 m3/d WWTP) (ApaSan Project) (2017-2018).

Leading development of solid wastes SF and EIAs for urban & rural areas (Parcani (Soldanesti rayion), Mereni, Ghidighic) 2008-2018.

Name of assignment or project: Water Security Diagnostic and Future Outlook

Year: 2018-ongoing

Location: Moldova

Client: World Bank

Position Held: National Water Sector Consultant (STC)

Main project features and Activities performed: The specific objectives of the consultancy and scope of work in the different project stages are as follows:

To coordinate with the members of the Diagnostic’s Steering Group and development partner funded projects for the facilitation of the data collection of relevant secondary data, and other information including existing datasets (on water use, abstractions, infrastructure, water quality and quantity, financial data, etc.), studies, (regional) plans, policies/legislation.

To coordinate and act as a bridge between the contracted international firm as well as with country and headquarters World Bank staff, and report any obstacles and issues encountered to allow for a smooth implementation of the work.

To lead the organization of stakeholder workshops/roundtable meetings in each of the proposed study stages (including kick-off workshop, scenario development, and dissemination events_, including the development/contribution of ppt.

To prepare specific inputs on the Moldova water institutional assessment, including legislative and institutional set-up, current policies and incentive structures, and identify opportunities and weaknesses. Draft specific institutional section of the “stock-taking note” as well as the final “water security diagnostic report”

To provide inputs, specifically on environmental aspects of the diagnostic report.

Name of assignment or project: Project Management Consultancy Services for implementation of local roads improvement project financed by WB

Year: 02/2017–ongoing

Location: Moldova

Client: Roughton International Limited (Consultant to State Road Administration)/ World Bank

Position Held: Environmental & Social Safeguards Expert (part-time)

Main project features and Activities performed: The Services will be carried out under the following 3 tasks:

Task 1: Project Management ((a) Project management support to SRA (b) Procurement support to SRA (c) Monitoring and evaluation support to SRA (d) Development of Local Road Planning, Design, Construction and Maintenance Manual (e) Introduction of Manual for 2nd Phase works).

Task 2: Institutional Strengthening ((a) Build Capacity for Reform of Local Roads Management (b) Develop and Implement Local Roads Planning, Design, Construction and Maintenance Procedures (c) Support the implementation of Local Roads Asset Management System (d) Support the implementation of Local Roads Performance-Based Maintenance Contracts (e) Support Local Roads Safety Programme (f) Support the SRA and LPAs in Local Roads management responsibilities to ensure suitable levels of service).

Task 3: Training ((a) Institutional & Operational Analysis (b) Training Needs/Experience Gap Analysis (c) Development of Training Programmes for SRA and LPA).

Name of assignment or project: General Water Supply and Sanitation Plan (GWSSP) for the Ialoveni Raion

Year: 2018-2019 **Location:** Moldova

Client: ApaSan Project (SDC/ADA) and MARDE, Ialoveni Rayon Council.

Main project features: The purpose of the GWSSP is:

To conduct a pilot exercise for the development of a first GWSSP for Ialoveni District including a long-term investment plan for water supply and sanitation infrastructure and services.

To improve capacities of LPA for strategic planning of water supply and sanitation infrastructure and services;

To provide opportunities for the development of local consulting capacity for the elaboration of GWSSPs.

AQUA PRO Consultancy for water management, Austria, has been awarded for implementing GWSSP Part II – Sanitation in June 2018.

Position Held: Water Management Consultant

Activities performed: Collection of data and logistic support; including for revision of Romanian version of documents.

Name of assignment or project: Review and update the existing safeguards documents and prepare additional documents, if needed according to the World Bank safeguards policy requirements and disclosure procedures;

Year: 2018-2020 **Location:** Moldova

Client: Moldova Energy Projects Implementation Unit (MEPIU)

Main project features: Collect all required data, information and materials, carry out field visits to prepare a separate site-specific Environmental and Social Management Plan (ESMP), including local public consultations, for a new proposed building for Moldelectrica to be constructed in Chisinau for SCADA dispatching and relocation of other administrative functions of this institution;

Review the existing customer feedback and assess the institutional capacity of the Moldelectrica in managing safeguards activities of the project and suggest a suitable capacity building/ training plan;

Review the grievance redress mechanisms of the Moldelectrica and prepare a gender and citizen engagement strategy for the project.

Position Held: Social Safeguard Expert

Activities performed: Preparation of site-specific Environmental and Social Management Plan (ESMP), Assessment of institutional capacity, gender and citizen engagement strategy.

Name of assignment or project: Development of Environmental and Social Management Plan and Resettlement Action Plan for M12 & M03 Road (3 segments)

Year: 12/2017- 06/ 2019

Location: Ukraine

Client: World Bank

Positions held: Environment & Social Consultant (part-time)

Activities performed: Development of Environmental and Social Management Plan and Resettlement Action Plan. Assignment Budget: \$49,600.

Name of assignment or project: Strengthening the institutional framework in the water and sanitation sector in the Republic of Moldova (Phase 01)

Year: 2018

Location: Moldova

Client: Ministry of Agriculture, Regional Development and Environment / Public Institution "EMP Management Durabil POP" (EMP)

Positions held: Local Institutional Water Sector Consultant

Activities performed: Functional analysis of the water sector and of the present and possible future role of the "Apele Moldovei" Agency, the Agency for Geology and Mineral Resources (component related to underground water) and the State Hydro meteorological Service (component related to hydrology) .Two options for reorganization: Water sector management as a part of Environmental Agency or Water sector management as part of reorganized Water Agency. Final report regarding the implementation of the Consultant's activities and tasks.

Name of assignment or project: Design, construction, testing, transportation, erection and commissioning of No. 3 Shunt Reactors of 55 MVAR, 400 kV, for the electrical substation in Vulcanesti, a city in the south of Moldova

Year: 2018

Location: Moldova

Client: Pan Construct SRL

Main project features: Shunt reactors are used in a power system to compensate the capacitive reactive power required by the large HV grids and Tamini has the right skills to manufacture three-phase and single-phase units, with a power rating up to 300 MVAR and a system voltage up to 420 kV.

The contract also includes the removal of the old existing reactors and all the civil engineering works necessary to rebuilt the site for the new units' installation.

Positions held: Environmental Consultant (part-time)

Activities performed: Develop a Contractor's EMP for above mentioned works.

Name of assignment or project: **ESCO Moldova- Transforming the market for urban energy efficiency in Moldova by introducing Energy Service Companies.**

Year: 2018

Location: Moldova

Client: UNDP Moldova

Positions held: National Consultant for ESCO Terminal Evaluation

Activities performed: The Terminal Evaluation assessed the achievement of project results, and express lessons that can both improve the sustainability of benefits from this project, and aid in the overall enhancement of UNDP programming. The Consultant worked together with an International Consultant.

Name of assignment or project: **SE Moldelectrica Transmission Network Rehabilitation Project.**

Year: 2017-2018

Location: Moldova

Client: Ecologie-Expert SRL /ELM ELECTROMONTAJ Cluj

Main project features: SE Moldelectrica hired The Contractor - JV Electromontaj Cluj S.A. - S.C. Energobit S.A and intends to reconstruct 110 kV OHL. Drochia - Suri with OPGW installation, Suri - Donduseni with OPGW installation, Chisinau - Hincesti with OPGW installation, Hincesti - Cneazevca with OPGW installation Soldanesti – Ignatei

Positions held: Environmental Consultant (part-time)

Activities performed: Developed Contractor's EMP for above mentioned works.

Name of assignment or project: **Programme Manager Water and Environment**

Year: 2017-2018

Location: Moldova

Client: ADA Project

Main project features: Strengthening the water supply and sanitation infrastructure in rural areas focusing on safe wastewater disposal in the town of Cantemir.

Positions held: Environmental Consultant (part-time)

Activities performed: Development of Gender, Social and Environmental Impact Analysis, Management and Sustainability Plan (GSEIAMSP) of the Cantemir Project Area. Assignment budget: €33,800

Name of assignment or project: **Environmental management of ongoing road projects in Moldova**

Year: 03/2016–03/2018

Location: Moldova

Client: State Road Administration

Positions held: Environment & Social Consultant (part-time)

Activities performed:

Preparation of annual reports to International Financial Institutions; Environmental management of ongoing road projects in Moldova (350 km of national roads); Preparation of local roads improvement project financed by WB (aprox. 300 km); Review the Environmental Management Plans for subprojects; Review the Environment Management Framework (EMF); Review the Resettlement Policy Framework; Develop a Stakeholder Engagement Plan (SEP) for this Project; Contribute to preparation of ToRs for Detailed Design and Construction Supervision; Environmental on-site monitoring for on-going projects; Review Contractor's and Engineer's environmental, social and Occupational Safety and Health (OHS) reports.

Name of assignment or project: **Preparation of tendering documents including Development of Environmental and Social Impact Assessment and Resettlement Action Plan for M03 Road (4 segments) in Ukraine.**

Year: 01/2017-02/2018

Location: Ukraine

Client: Ukravtodor (WB Project)

Positions held: Social Consultant (part-time)

Activities performed: Social assessment as a part of ESIA, public consultations, Resettlement Action Plans.

Name of assignment or project: **Environmental auditing for the CHP 1 and assessing the cost of: decommissioning, dismantling and environmental remedial measures**

Year: 01/2017-03/2017

Location: Moldova

Client: Energplan SRL

Main project features: The proposed project development objective is to improve the coverage, quality, efficiency, and sustainability of centralized heating services in selected urban area.

Positions held: Environmental Expert (part-time)

Activities performed: The assignment was aimed at undertaking an environmental auditing of the CHP 1, identifying: (a) current and past environmental liabilities; (b) designing alternative scenarios and action plans for partial/full decommissioning strategies and associated dismantling and clean-up remediation activities; (c) estimating necessary costs for identified scenarios and action plans; and (d) identifying key environmental impacts of formulated dismantling and remediation action plans and proposing mitigation measures and monitoring activities.

Name of assignment or project: Head Management of State Agency with more than 1200 subordinated employees in 19 subdivisions inclusive Iprocom design Institute

Year: 06/2014–08/2015 **Location:** Moldova

Client: Moldova Waters Agency (Agentia "Apele Moldovei")

Positions held: General Director

Activities performed: Daily management of agency; Responsible for the duties and performance of agency; Represents the interests of the agency in dealing with ministries and other central administrative authorities and local government authorities and various businesses and organizations, including abroad; Issue orders on matters within the competence of the agency; Approve, within the resources allocated from the budget, annual work plans thematic design and scientific research, program development plans and general water and hydrological management schemes.

Name of assignment or project: Consultancy to State Road Administration

Year: 01/2014 –08/2014 **Location:** Moldova

Client: State Road Administration

Positions held: Environment & Social Consultant (part-time)

Activities performed: Updating of the Resettlement Policy Framework (RPF) to include the following roads: R1 (Chisinau – Ungheni – Sculeni – Romanian border), R14 (Balti-Sarateni section), R16 (Balti – Falesti – Sculeni), R13 (Balti – Soldanesti – Ribnita [section Balti-Gura Camencii]), R33 (Hincesti – Lapusna – M1), R34 (Hincesti – Leova – Cahul – Slobozia Mare), R3 (Chisinau – Hincesti – Cimislia – Basarabeasca [Chisinau – Hincesti]), R6 (M1 – Ialoveni), R9 (Soroca – Arionesti – Moghiliov Podoloski [Arionesti – Otaci]);

Development of Resettlement Action Plans for each road listed above, incl. Resettlement Policy Framework where needed; Development of a Stakeholder Engagement Plan including in total 12 roads; Updating of the Environmental Management Plan for each Road Section (in total 12 roads).

Name of assignment or project: Rehabilitation of 93 km of roads

Year: 06/2011 –06/2014 **Location:** Moldova

Client: Millennium Challenge Account, Moldova

Positions held: Environmental & Social Consultant

Activities performed: Reviewing and approving the Environmental and Social Management Plan (ESMP) and Contractors ESMP, Occupational safety and health (OHS) Plans; Supervise the implementation of ESMP; Environmental monitoring (reviewing monitoring reports and be present on sampling points); Environmental supervision (roads monitoring trips, checking list fulfilling, working meeting and common supervision with Contractors and Engineers specialists); Reporting to Millennium Challenge Corporation (MCC) and Moldova Government about environmental and social issues; Supervision of implementation of Resettlement Action Plan. Assignment Budget: \$262 million.

Name of assignment or project: Consultancies on various projects and Management of company

Year: 01/2008– 06/2014 **Location:** Moldova

Client: Ecologie-Expert L.T.D. (EcoExpert)

Positions held: Executive Director (2013-2014), Environment Consultant, Team Leader, Main Coordinator

Activities performed: Daily management of Company. Establish contact with a variety of clients. Elaborate technical and financial offers. Hiring new personnel. Coordinate the projects developed by company. Elaborate environmental studies and coordinate the feasibility studies and EIAs. Combine and review the documents developed by other Company experts and approve it. Quality control of documents.

Name of assignment or project: Developing of Environmental Assessment & Environmental Management Plan for a Project to improve the efficiency of centralized heat supply in Chisinau

Year: 09/2013-12/2013 **Location:** Moldova

Client: Termocom S.A./ IDA

Positions held: Main Coordinator/ Environmental Expert

Activities performed: The main task was to conduct with a team of experts the Environmental assessment of actual heating infrastructure and to assess the possible environmental impacts during rehabilitation works and in operation of new equipment. To propose the mitigation measures and a plan for monitoring and estimate the budget for this.

Name of assignment or project: Occupational Health and Safety Audit

Year: 08/2013- 12/2013 **Location:** Moldova

Client: Trans-Oil Group

Positions held: Main Coordinator/ Environmental Expert

Activities performed: Occupational Health and Safety Audit for “Floarea Soarelui” S.A. (vegetable oil factory in Balti city) and “Trans-Oil Refinery” (vegetable oil factory in Ceadir-Lunga town).

Name of assignment or project: Environmental Management Plan for RTEC Chisinau

Year: 09/2012- 06/2013

Location: Moldova

Client: RTEC

Positions held: Main Coordinator/ Environmental Expert

Activities performed: Leading specialist in development of: Environmental Management Plan (assessment, mitigation, monitoring measures); Occupational Health and Safety (OSH) Plan; Grievance mechanisms for employees; Retrenchment mechanism for project financed by the EBRD and implemented by RTEC for the purchase of over 100 trolleybuses in municipality of Chisinau. Assignment Budget: €14,000.

Name of assignment or project: The feasibility study “The development on alternative renewable sources of energy infrastructure in Slobozia and Ermoclia Mayoralties, Ștefan Vodă”

Year: 03/2013-05/2013

Location: Moldova

Client: Slobozia and Ermoclia Mayoralties

Positions held: Main Coordinator/ Environmental Expert

Activities performed: Coordinated the development of renewable energy projects.

Name of assignment or project: Pluvial sewage – promoting and implementing innovative measures against climate change

Year: 05/2010–12/2011

Location: Moldova

Client: Chisinau City Hall, PIU/ EU funded project

Main project features: Rehabilitation of pluvial sewage on the streets inclined to floods, in Chisinau City.

Positions held: Environmental Expert

Activities performed: TOR elaboration; Elaboration of EMP (description of environmental conditions, assessment of possible environmental impacts, propose mitigation measures and monitoring activities, cost estimation for implementation); Environmental construction supervision; Report periodically. Assignment budget: € aprox. 900,000.

Name of assignment or project: Road Sector Program Support Project.

Year: 07/2007–06/2011

Location: Moldova

Client: State Road Administration/ WB, EBRD, EIB

Positions held: Environment & Social Consultant (part-time)

Activities performed: Conducting the Initial Environmental Assessments identifying the potential impacts for selected road sub-projects and define the types of required Environmental Assessment. Dealing with resettlement issues on road projects. Dealing with social issues on road projects. Preparation the program (curricula) and organize training for: (a) integration of environmental requirements and procedures in the project cycle and in the sector policy; (b) performance of the State Ecological Expertise for project and design documentation relevant to the road construction/rehabilitation; (c) execution of the state control and departments supervision for projects in the road sector. Organize the revision and improvement of environmentally oriented regulatory acts, instructions and standards in relation to the road sector, including requirements of environmental protection during the design, construction, rehabilitation, repairing period and maintenance of the roads and bridges. Monitoring of EMP implementation. While working at SRA I dealt with the following projects:
2010 - 2011 - Review of Environmental Assessment for approx. 600 km of national roads in the Feasibility Study. Environmental assessment including Resettlement Framework is carried out for roads: R9, R6, R33, R34, R3, R13, R16, R1. Actively participated on review of documents, in public consultations including the organization and presentation.
