INSTRUCTIONS FOR USE

Preventive use:

- ⇒ Write the opening date on the bottle before first use
- ⇒ Screw the bottle on the appliance NOCOSPRAY® or NOCOMAX®
- ⇒ Set the machine on the volume of the room to be treated
- ⇒ After the end of diffusion, respect a contact time of minimum 30 minutes.

NOTE:

During the diffusion, let the room closed and do not enter in.

Treatment should be conducted with no human presence.

- ⇒ *The treatment has to be renewed every day*

IMPORTANT:

Achieving a good quality of disinfection is directly linked to the respect of a strict cleaning protocol, carried out before the treatment.

Its maintenance depends on a regular application of preventive treatments.
