Vehicles Past Performance

Amount	PoP	Scope
\$100,078.00	24 April 2024	KVG LLC provided a fully customized mobile command center vehicle for the Crisis Management Center in North Macedonia. The scope of work included manufacturing and outfitting the vehicle with integrated communications systems, surveillance equipment, satellite internet, TETRA radio systems, meteorological monitoring equipment, operator workstations, emergency lighting and siren systems, onboard power and generator capabilities, and delivery of the completed vehicle to Skopje, North Macedonia.
\$785,155.00	August 20 - September 22, 2023	KVG supplied and customized five specialized vehicles, redesigned and retrofitted into "AVTR Emergency Workshops" built on ISUZU NPR75L-K chassis, for Tetra Tech in coordination with the Ukraine Ministry of Energy.
\$297,891.00	September- October, 2021	KVG provided and integrated a complete vehicle-based mobile surveillance system (MSS) for the Albanian Border and Migration Police, including a Toyota Hilux 4x4 surveillance vehicle, EO/IR sensor suite, AI-enabled video analytics and recording capability, communications systems, terrain mapping software, operator consoles, training, technical documentation, warranty services, and on-site technical support in Albania.
